Re: Harris #1 Well Proposal
Sec. 8, T-10-S, R-38-E,
Lea County, New Mexico

Dear Mineral Owner:

CML Exploration, LLC, is proposing the drilling of the captioned well as a Devonian Test to approximately 12,000'. The well is to be located at the non-standard location of 1357' FSL & 1565' FWL of Section 8, T-10-S, R- 38-E, Lea County, New Mexico. Said well will also require a non-standard pool unit consisting of the E/2 SW/4 of said Section 8. You have an unleased mineral interest in the proposed non-standard 80 acre pool unit for this well. CML will request a hearing with the NMOCD to apply for both the non-standard location and pool unit.

We estimate the well will cost \$2,384,350.00 to drill and \$1,097,211.00 to complete, for a total of \$3,481,561.00. Enclosed is an AFE for the subject well. We have a drilling rig scheduled to drill this well in August of this year. We invite you to join with us in the drilling of this well. If you choose to participate please sign this letter in the space provided below and also sign the AFE. Return both items for me and I will forward our Operating Agreement for your review and execution. My mailing address and phone number are indicated above in the letter head, my fax # is 432-685-1133, and my email is fitzgeraldj@cmlexp.com. If you decide not to join and would like to enter into an oil and gas lease, as previously proposed by MBF Land Services, we would be happy to do that also.

You are welcome to contact me with any questions.

Sincerely,

Joe Fitzgerald
Land Manager

____ I/We hereby elect to join in the drilling of the CML Harris #1 as proposed herein above.
