Good Afternoon, Adam

After consideration of this matter, the Division has determined that this confidential map will not be required in this case, in view of the expert's uncontradicted opinion testimony.

Sincerely

David K. Brooks

Richard and David,

I write in response to Richard's request made at the June 27 hearing that OXY submit an isopach map for the proposed spacing unit. Upon review of the data that is incorporated into such maps, OXY has determined that the information used includes three-dimensional seismic data that is under a licensing agreement which precludes disclosure. OXY is willing to submit the requested isopach map on condition that the Division handle the map as confidential and proprietary trade secret information that cannot be disclosed as part of the public record. Please let me know if the Division will agree to protect the isopach map against such disclosure.

As for the Township map depicting well development and location in the area, OXY is preparing that map now for submission to the Division and it will be provided shortly.

Please let me know if you have any questions.

Sincerely,  
Adam
