RE: Ann Com No. 1 Well Proposal
1650' FNL & 1980' FEL
Sec 15-24S-28E: N2 Spacing Unit
Eddy County, NM

Dear Mineral Owner,

RSC Resources, L.P. proposes the reentry and completion of the Ann Com No.1 to the Wolfcamp interval from 10,400'-11,200'. The designated orthodox spacing unit is the N2 of section 15-24S-28E, containing approximately 320 acres.

Please find the enclosed Authority for Expenditure(AFE) in the amount of \$1,451,000. Please be aware this is only an estimated cost and actual final costs may be different. If you decide to join in the operation as a working interest owner, please signify by executing the AFE in the space provided and return to RSC as soon as possible. RSC will then provide an invoice for your proportionate share of the costs. Guardian Operating Corp., wholly owned by RSC, will be designated as Operator.

As an alternative, RSC offers to take an oil and gas lease covering the above described lands and will pay \$500 per net acre as bonus for the lease, 1 yr term, 1/5th royalty. Execute the enclosed Lease witnessed by a Notary and return in the envelope provided. RSC will then send the bonus payment within 3 business days. Please fill in the information requested below and return this letter also. You must provide your [REDACTED] number in order to receive the payment.

Please provide proof of ownership; i.e., copy of deed, will or probate, if available. Thank you for your cooperation.

Please contact the undersigned with any questions or to discuss possible leasing of the interest.
