**Re: NMOCD Case No. 15036: Application of Capstone Natural Resources LLC  
for Reinstatement of Authorization to Inject for Waterflood Project  
Operations, Eddy County, New Mexico**

Gentlemen:

Thank you for considering this case at today's hearing. Capstone Natural Resources has requested that I clarify one point about their Application: Capstone seeks to conduct injection at rates up to a maximum of 300 barrels of water per day per well rather than as a total daily injection rate for the entire project. I don't believe the testimony we offered was precisely clear on this point.

If additional information is required, please let me know.

Thank you.

Very truly yours,

J. Scott Hall
