

Bell Lake North Devonian
discovered: 1960
production to date: 31.1 bcfg, 61 mbo
Devonian producers: 1
original gas-water contact: -11,364
original gas column: 285'

Bell Lake Middle Devonian
discovered: 1965
production to date: 1.7 bcfg, 1 mbo
Devonian producers: 2
original gas-water contact: -11,230
original gas column: 79'

Bell Lake Devonian
discovered: 1955
production to date: 17.8 bcfg, <1 mbo
Devonian producers: 2
original gas-water contact: -11,405
original gas column: 290'

Antelope Ridge Devonian
discovered: 1962
production to date: 38.9 bcfg, 750 mbo
Devonian producers: 4
original gas-water contact: -11,350
original gas column: 240'
