Bill - In reviewing Mr. Baxter letter of January 7, 2002, I can not agree with his time schedule. If he proceeds with the plugging at the rate requested, it will take over two years to complete the plugging of the seven wells. Mr. Baxter needs to complete plugging these wells no later than September 1, 2002. If he will agree with this I believe we can postpone the hearing. Also, if his intent was to TA the wells provided in his letter then I need copies of all the pressure charts that should have been done at the time of setting the cast iron bridge plugs. I will need this information supplied to me by this afternoon. Chris Williams, District 1 Supervisor.
