Ms. Wrotenberg:

My sincere apologies for us "dropping the ball" on the inactive well report plan. We will get to work on it ASAP, however I do have a problem. The man here at Xeric who will have the most input on this project is out until 11-19-01 and without his participation I will not be able to get you an accurate report. Therefore I respectfully request that you give us until 11-30-01 to get the report back to you.

Thank you,  
Rob Barnett

PS - You can now e-mail me direct at this address.
