Attn: Rob Barnett

Mr. Barnett,

I have not yet received Xeric's plan for addressing its inactive wells, and the division's records indicate that all 114 wells remain out of compliance with division rules. These wells must be returned to compliance as soon as possible through reactivation, plugging, or temporary abandonment. By November 20, 2001, please provide me a plan for bringing all 114 wells into compliance within the next six to eight months.

Thank you.

Lori Wrotenbery

Attention: Rob Barnett

Mr. Barnett,

Attached is the spreadsheet of inactive wells we discussed by phone this afternoon. These wells will need to be addressed within the next year. Within the next few weeks, please complete the column labeled "Operator's Proposed Action/Date and Comments" and return the spreadsheet to me. Feel free to call me if you have any questions. Thank you for your cooperation.
