DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF COG OPERATING, LLC,
FOR APPROVAL OF SURFACE LEASE COMMINGLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 15202

APPLICATION

COG OPERATING LLC, ("COG") through its undersigned attorneys, hereby makes application to the Oil Conservation Division to approve surface lease commingling of production from the Yeso formation, Penasco Draw; SA-Yeso Pool (Pool Code 50270), and in support of its application states:

1. COG Operating, LLC (OGRID No. 229137) is the operator of the following wells:

- (a) Clydesdale 1 Fee #1H (30-015-40214)
- (b) Clydesdale 1 Fee #2H (30-015-39783)
- (c) Clydesdale 1 Fee #3H (30-015-40123)
- (d) Clydesdale 1 Fee #4H (30-015-40131)

All of these wells are located on fee lands in Section 1, Township 19 South, Range 25 East, N.M.P.M., Eddy County, New Mexico.

2. The leases from which COG seeks to commingle production from its Clydesdale wells are of diverse ownership and identified on Exhibit A.

RECEIVED OOD
2014 AUG 19 P 11:23

3. COG has placed a central tank battery and measurement facilities for the above mentioned wells on the Clydesdale 1 Fee #1H well site, located on Unit A, Section 1, Township 19 South, Range 25 East.

4. COG will meter and allocate production to the various leases based upon a continuously metered test separator. The test separator is a 3-phase horizontal separator that will measure oil, water and gas.

5. By administrative application dated June 2, 2014, COG sought Division approval for lease commingling at a central tank battery.

6. COG provided notice to all interest owners of its intent to surface commingle production from the leases and that said production would be stored and measured on the Clydesdale 1 Fee #1H well site.

7. After providing notice, Michael Carter and Sandra Baker filed objections with the Division to the proposed lease commingling. COG has contacted the objecting parties, but has been unable to resolve their concerns.

8. Approval of this application will result in efficient production, storage, and measurement operations for the subject wells, lessen the impact on the surface estate, and is otherwise in the best interest of conservation, the prevention of waste, and the protection of correlative rights.

WHEREFORE, COG Operating LLC requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 18, 2014, and, after notice and hearing as required by law, the Division approve this application.

Respectfully submitted,

HOLLAND & HART, LLP
