13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

RKI Exploration and Production requests approval to change the permitted well name, producing formation, bottom hole location, and drilling plan of the subject well.

The subject well name should be North Brushy Draw Federal Com 35-4H.

The proposed producing formation is the Wolfcamp, with a TVD of 10,440' and BHL of 600 feet FNL/1,980 feet from the West line.

To accommodate the change in formation and BHL, the drilling plan proposes a 7 inch intermediate casing string be run to KOP, a 6 1/8 inch production interval be drilled, and a 5 1/2 inch by 4 1/2 inch tapered longstring be run.

14. I hereby certify that the foregoing is true and correct.
