Section 1-T23S-R31E  
Eddy County, New Mexico

Gentlemen:

Devon Energy Production Company, L.P. ("Devon") proposes to drill the referenced horizontal well to an approximate TVD of 10,465' and an approximate TMD of 14,980' in order to test the Bone Spring formation. The well will consist of the W/2 E/2 of Section 1-T23S-R31E, Eddy County, NM.

To facilitate this project, Devon also proposes forming a 640.00 acre working interest unit, covering all of Section 1-T23S-R31E, Eddy County, NM. This unit will be made up of Federal Lease USA NMNM 22080, insofar as it covers all of Section 1-T23S-R31E. Accordingly, Linn Energy Holding, LLC would have a 43.75% working interest in the proposed working interest unit and well.

Enclosed you will find Devon's AFE, in duplicate, for the procedure reflecting our estimated completed well cost of \$7,091,749, as well as Devon's proposed AAPL 1989 Model Form JOA covering the proposed contract area. An election to participate should be accompanied by an executed AFE, a signed set of signature pages, and your most updated well requirement sheet including email addresses.

If you have any questions concerning this proposal, please contact the project engineer, Dan McCorkell, at 405-228-7528 or the undersigned at 405-228-4342.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L.P.
