Dear Mr. Jones,

I have conferred with our client, who confirmed that COG has not signed the applicable JOA. A pooling order is therefore still necessary.

Thanks, and have a wonderful weekend,  
Jordan

Hello Counselor Kessler,

The Oil Conservation Division heard this case November 20<sup>th</sup> of 2014 and at that time the only thing pending requiring this order was for COG Operating LLC to sign the Chevron proposed JOA to cover this W2W2 of Sec 11, T24S, R34E project area.

I am about to write this compulsory pooling order – but if COG has already signed the JOA, it may not be necessary. Would you check with Jason Levine and let me know?

Anyway..  
Happy New Year,

*Will Jones*
