Subject: Case No. 15276: Division advertisement for Cookie Tosser State Com #1H

Hi Florene,

The above-referenced case was heard at the Division docket on March 19th. However, the surface location for the well has changed, necessitating republication in the Division notices. Could you please include the advertisement below with the notices for the April 30th hearing?

Thanks!
Jordan

CASE 15276: *(Readvertised)* **Application of COG Operating LLC for a non-standard spacing and proration unit and compulsory pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order (1) creating a non-standard, 160-acre, more or less, spacing and proration unit comprised of the E/2 E/2 of Section 16, Township 18 South, Range 30 East, NMPM, Eddy County and (2) pooling all mineral interests in the Bone Spring formation underlying this acreage. Said non-standard unit is to be dedicated to applicant's proposed **Cookie Tosser State Com No. 1H Well**, which will be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 16 to a standard bottom hole location in the SE/4 SE/4 (Unit P) of Section 16. The completed interval for this well will remain within the 330-foot standard offset required by the rules. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of COG Operating LLC as operator of the well and a 200% charge for risk involved in drilling said well. Said area is located approximately 5 miles south of Loco Hills, NM.
