

**BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION**

**APPLICATION OF LG&S OIL COMPANY, LLC  
FOR A SALT WATER DISPOSAL WELL,<sup>2015 JUN 15 P 1:04</sup>  
IN EDDY COUNTY, NEW MEXICO.**

**RECEIVED OCD**

**Case No. 15345**

**APPLICATION FOR SALT WATER DISPOSAL**

LG&S Oil Company, LLC, by and through its undersigned attorney, applies for an order approving a salt water disposal well, and in support thereof, states:

1. Applicant seeks an order proposing a salt water disposal its Kehane B Federal 3, located 1980' FNL and 1980' FWL, Unit F, Section 28, Township 18 South, Range 31 East, N.M.P.M., Eddy County, New Mexico.
2. Applicant proposes to set a packer at 3200 feet below the surface of the earth and then inject into the Queen formation at the perforated depths of 3280' to 3570'.
3. Attached hereto is Form C-108.
4. The granting of this application will prevent waste and protect correlative rights.

**WHEREFORE**, Applicant requests that, after notice and hearing, the Division enter its order approving this application.

Respectfully submitted,

PADILLA LAW FIRM, P.A.

/s/ Ernest L. Padilla

ERNEST L. PADILLA,  
Attorney for LG&S Oil Company, LLC  
PO Box 2523  
Santa Fe, New Mexico 87504

**NMOC**D Case No. 15345

***Application of LG&S Oil Company, LLC, for approval of a salt water disposal well, in Eddy County, New Mexico;*** Applicant seeks an for a salt water disposal in its Keohane B Federal 3, located 1980' FNL and 1980' FWL, Unit F, Section 28, Township 18 South, Range 31 East, N.M.P.M., Eddy County, New Mexico. The well is located approximately 10 miles south of Maljamar, New Mexico.

APPLICATION FOR AUTHORIZATION TO INJECT

- I. PURPOSE: Secondary Recovery      Pressure Maintenance       Disposal       Storage  
Application qualifies for administrative approval?      Yes      No
- II. OPERATOR: LG&S OIL COMPANY, LLC  
ADDRESS: P. O. BOX 52, LOVINGTON NM 88260  
CONTACT PARTY: BRIAN WOOD (PERMITS WEST, INC.)      PHONE: 505 466-8120
- III. WELL DATA: Complete the data required on the reverse side of this form for each well proposed for injection.  
Additional sheets may be attached if necessary.
- IV. Is this an expansion of an existing project?      Yes       No  
If yes, give the Division order number authorizing the project:
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
- VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.  
Kehane B Federal 3  
30-015-05625  
SWD: Queen (96117)
- VII. Attach data on the proposed operation, including:  
1. Proposed average and maximum daily rate and volume of fluids to be injected;  
2. Whether the system is open or closed;  
3. Proposed average and maximum injection pressure;  
4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and  
5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- \*VIII. Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such sources known to be immediately underlying the injection interval.
- IX. Describe the proposed stimulation program, if any.
- \*X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division, they need not be resubmitted).
- \*XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.
- XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking water.
- XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.
- XIV. Certification: I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.

NAME: BRIAN WOOD

TITLE: CONSULTANT

SIGNATURE: 

DATE: APRIL 6, 2015

E-MAIL ADDRESS: brian@permitswest.com

\* If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be resubmitted. Please show the date and circumstances of the earlier submittal:

### III. WELL DATA

A. The following well data must be submitted for each injection well covered by this application. The data must be both in tabular and schematic form and shall include:

- (1) Lease name; Well No.; Location by Section, Township and Range; and footage location within the section.
- (2) Each casing string used with its size, setting depth, sacks of cement used, hole size, top of cement, and how such top was determined.
- (3) A description of the tubing to be used including its size, lining material, and setting depth.
- (4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used.

Division District Offices have supplies of Well Data Sheets which may be used or which may be used as models for this purpose. Applicants for several identical wells may submit a "typical data sheet" rather than submitting the data for each well.

B. The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics need not be repeated.

- (1) The name of the injection formation and, if applicable, the field or pool name.
- (2) The injection interval and whether it is perforated or open-hole.
- (3) State if the well was drilled for injection or, if not, the original purpose of the well.
- (4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to seal off such perforations.
- (5) Give the depth to and the name of the next higher and next lower oil or gas zone in the area of the well, if any.

### XIV. PROOF OF NOTICE

All applicants must furnish proof that a copy of the application has been furnished, by certified or registered mail, to the owner of the surface of the land on which the well is to be located and to each leasehold operator within one-half mile of the well location.

Where an application is subject to administrative approval, a proof of publication must be submitted. Such proof shall consist of a copy of the legal advertisement which was published in the county in which the well is located. The contents of such advertisement must include:

- (1) The name, address, phone number, and contact party for the applicant;
- (2) The intended purpose of the injection well; with the exact location of single wells or the Section, Township, and Range location of multiple wells;
- (3) The formation name and depth with expected maximum injection rates and pressures; and,
- (4) A notation that interested parties must file objections or requests for hearing with the Oil Conservation Division, 1220 South St. Francis Dr., Santa Fe, New Mexico 87505, within 15 days.

NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN SUBMITTED.

---

NOTICE: Surface owners or offset operators must file any objections or requests for hearing of administrative applications within 15 days from the date this application was mailed to them.

1980' FNL & 1980' FWL SEC. 28, T. 18 S., R. 31 E.

EDDY COUNTY, NEW MEXICO

30-015-05625

I. Purpose is to convert a Shugart; Yates-7RS-QU-Grayburg (pool code 56439) oil well to a commercial SWD; Queen (pool code 96117) saltwater disposal well. The well was drilled by Gulf in 1962 to 3650'. It was plugged 3 months later with no production. It was re-entered in 1972 and successfully completed by Shenandoah as an oil well. LG&S became operator in 2008.

Cumulative production from December 1992 through December 2014 is 7380 barrels of oil and 86583 barrels of water (11.7 to 1 water to oil ratio). Cumulative production for 2014 is 1453 barrels of oil and 25435 barrels of water (17.5 to 1 water to oil ratio). It is no longer economical to operate the well as an oil well under current oil prices. The plan is to dispose into the Queen from 3280' to 3570', the same interval that currently, and uneconomically, produces.

II. Operator: LG&S Oil Company, LLC (OGRID #257988)

Operator phone number: (575) 390-0581

Operator address: P. O. Box 52, Lovington, NM 88260

Contact for Application: Brian Wood (Permits West, Inc.)

Phone: (505) 466-8120

III. A. (1) Lease: BLM lease NMLC-029390A

Lease Size: 280 acres (see Exhibit A for C-102 and map)

Closest Lease Line: 660'

Lease Area: S2NW4, NENW, & SE4 Section 28, T. 18 S., R. 31 E.

A. (2) Surface casing (8-5/8", 24#) was set at 259' in a 12-1/4" hole. Cement (150 sacks) was circulated to the surface.

Production casing (4-1/2", 9.5#) was set at 3,646' in a 7-7/8" hole. Cement (565 sacks & DV tool @ 793') circulated to the surface.

A. (3) Tubing will be 2-3/8" plastic lined. Setting depth will be 3200'. (Disposal interval will be 3280' to 3570').

LG&S OIL COMPANY, LLC

1980' FNL & 1980' FWL SEC. 28, T. 18 S., R. 31 E.

EDDY COUNTY, NEW MEXICO

30-015-05625

A. (4) A Baker X-1 packer will be set at 3200' (80' above the highest perforation of 3280').

B. (1) Disposal will be in the SWD; Queen (pool code 96117).

B. (2) Disposal interval will be 3280' to 3570'.

B. (3) Well was (twice) drilled as a Queen oil well.

B. (4) Well is perforated from 3280-88', 3292-98', 3304-08', and 3558-70' with 2 shots per foot. Shot diameter = 1/2". Additional perforations may be added within that overall interval of 3280' to 3570'.

B. (5) Yates is the only oil or gas zone above the Queen in the area of review. Morrow is the only oil and gas zone below the Queen and in the area of review.

IV. This is not an expansion of an existing injection project. It is disposal only.

V. Exhibit B shows all 11 existing wells (7 P & A wells + 2 oil wells + 2 gas wells) within a half-mile radius. Exhibit C shows all 275 existing wells (139 oil or gas wells + 119 P & A wells + 17 injection or disposal wells) within a 2-mile radius.

Exhibits D and E shows all leases and lessors (only BLM) within a one-half mile radius and two mile radius. Details on the leases within a half-mile radius are:

\*Plan to convert to SWD; Queen.

\*\* Water injection well 1972-1993. See WFX-371 and Case 3779 & R-3431.

\*\*\* Last produced in September 2009. Cumulative production (1998-2014) = 595 barrels of oil.  
Served as a water injector 1970-1998. Unit terminated 1-1-11.

- VII. 1. Average injection rate will be  $\approx$ 3,500 bwpd.  
Maximum injection rate will be 5,000 bwpd.
2. System will be open. Water will be trucked to the well.
3. Average injection pressure will be  $\approx$ 600 psi  
Maximum injection pressure will be .656 psi (= 0.2 psi/foot  $\times$  3280'  
(highest perforation)).
4. The disposal water will be produced water. For example, existing wells  
within Section 28 and the adjacent 8 sections produce from the Atoka,  
Bone Spring, Delaware, Devonian, Grayburg, Morrow, Queen, Seven  
Rivers, and Yates formations. An analysis of Queen water is in Exhibit G.
5. The Queen was productive in this well, but it is no longer profitable to  
operate it as an oil well. Production averaged 4 bopd and 71 bwpd in  
2014. Cumulative production from 1993-2014 was 7,380 barrels of oil.

LG&S OIL COMPANY, LLC

EDDY COUNTY, NEW MEXICO

PAGE 5

30-015-05625

VIII. The Queen is fine-grained sandstone with some siltstone, limestone, and gypsum.

Closest possible underground source of drinking water above the proposed disposal interval are the red beds between 675' to 695'. Water bearing sands were reported in the completion reports of 2 oil wells (30-015-05594 and 30-015-05619) within a half-mile. These sands occurred from 675' to 695'. There will be 2,579' of vertical separation and the Yates - Seven Rivers interval between the bottom of the only likely underground water source (red beds) and the top of the Queen.

No water wells are within a 2 mile radius (EXHIBIT H). This was verified during a January 28, 2015 field inspection. No underground source of drinking water is below the proposed disposal interval; Ogallala aquifer is >10 miles northeast (Exhibit H).

Formation tops are:

Quaternary = 0'  
Anhydrite = 580'  
Yates = 2191'  
Seven Rivers = 2394'  
Bowers = 3014'  
Queen = 3274'  
Disposal interval = 3280' - 3570'  
PBTD = 3625'  
TD = 3650'  
Grayburg = 3796'  
San Andres = 4210'  
Delaware = 4413'  
Bone Spring = 6160'  
Wolfcamp = 9650'  
Strawn = 10776'  
Atoka = 10986'  
Morrow = 11582'  
Barnett shale = 11910'

IX. The well will be stimulated with acid to clean out scale or fill.

X. No logs have been run.

XI. Based on a field inspection and a review of the State Engineer's records, there are no water wells within a 1-mile radius.

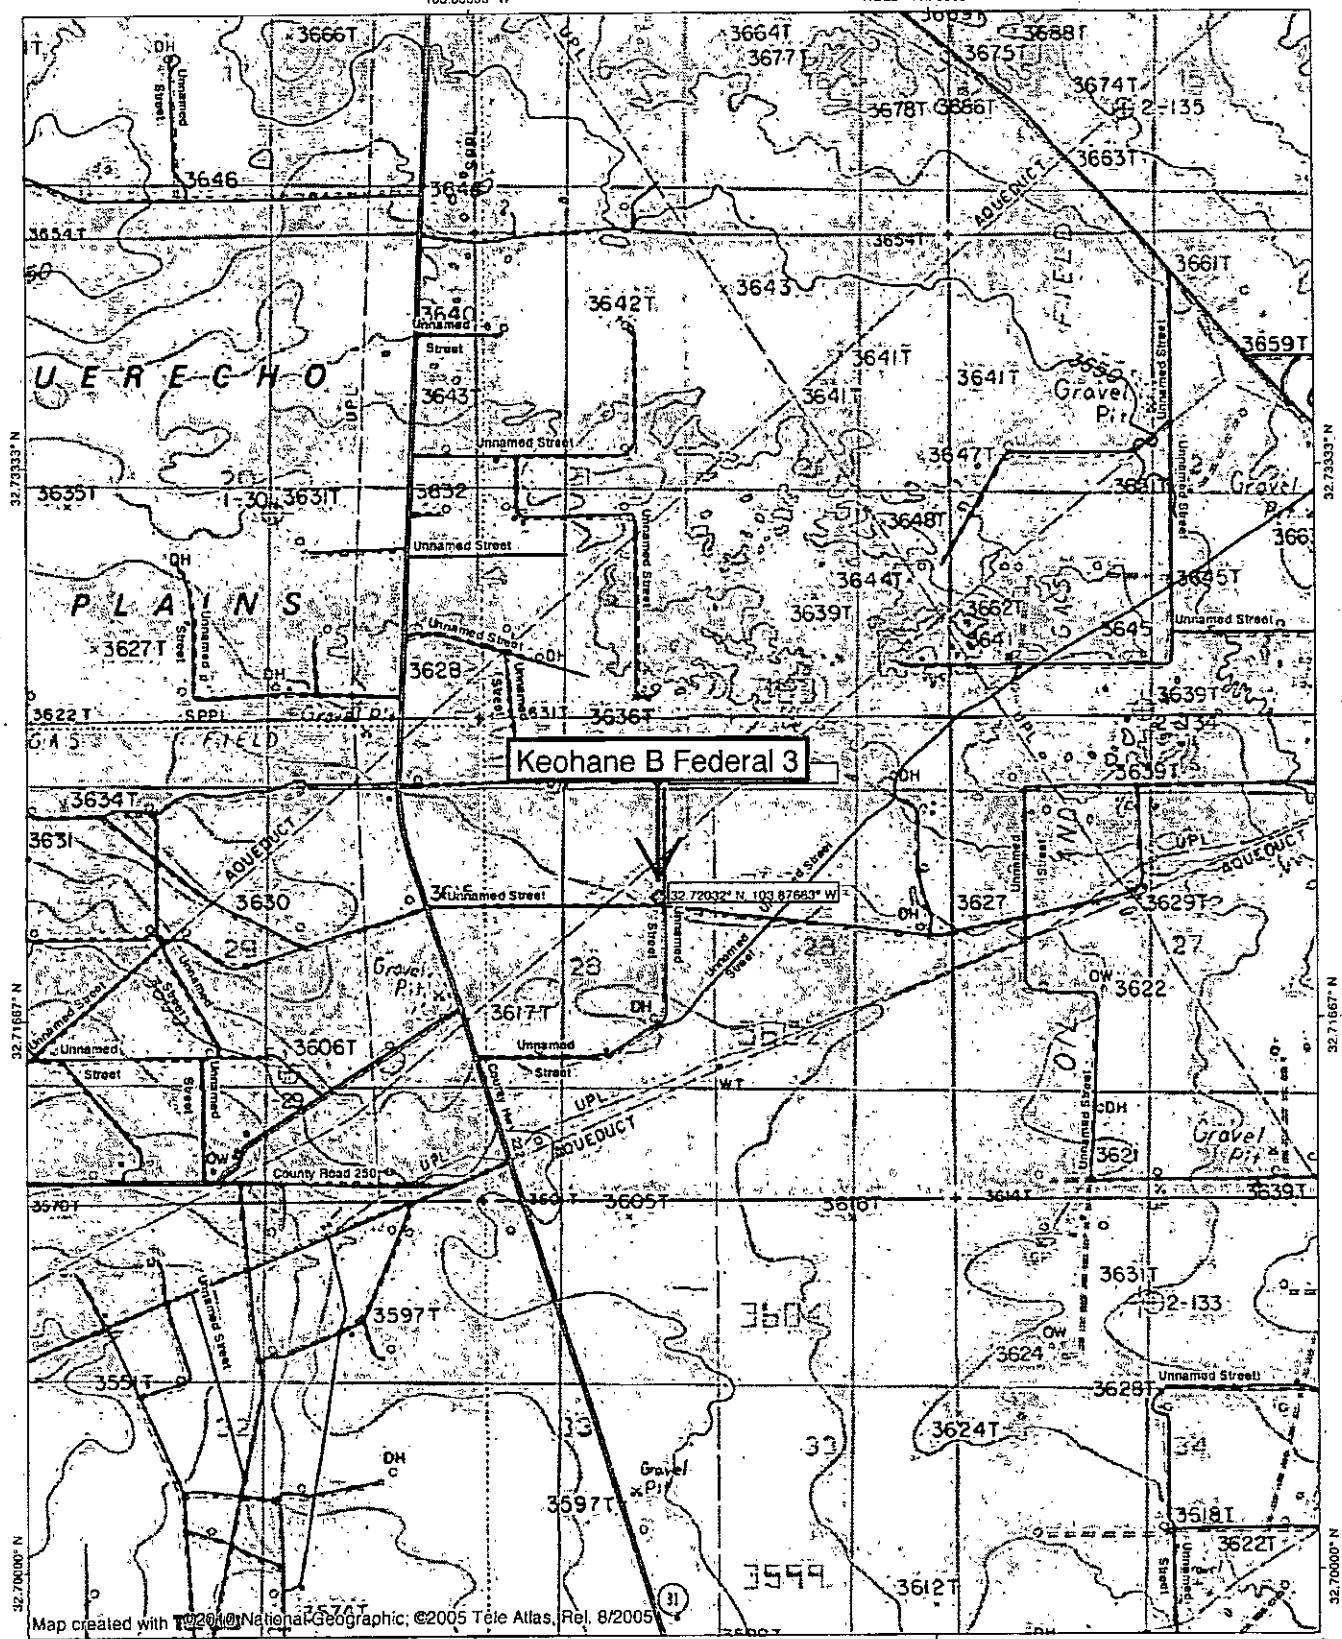

XII. LG&S Oil Company, LLC is not aware of any geologic or engineering data that may indicate the Queen is in hydrologic connection with any underground sources of water. Closest Quaternary fault is ≈75 miles west (Exhibit I). There are 28 Queen saltwater disposal wells and 485 Queen injection wells in New Mexico.

XIII. A legal ad (see Exhibit J) was published on January 25, 2015. Notice (this application) has been sent (Exhibit K) to the surface owner (BLM), all leasehold operators or lessees (COG Concho, Devon, 18-31 Inc., Energen, Fidelity, Iverson (Claire Ann), Iverson (Siegfred James III), Iverson (Wendell), Iverson-Page (Patsy), Magnum Hunter, Mills (Pete), Momentum, Nearburg, Penwell, Pierce (Jim), Pool (John), Rost, Energy, S&P, Sell (Steve), Sklarco, Southwest Reserves, Southwest Royalties), and lessors (BLM) within a half-mile.

Operator <b>SHENANDOAH OIL CORPORATION</b>			Lease <i>Keohane et al vs Federal</i> <b>FEDERAL-KEOHANE "B" (et al)</b>		Well No. <b>3</b>
Unit Letter <b>F</b>	Section <b>28</b>	Township <b>18S</b>	Range <b>31E</b>	County <b>Eddy</b>	
Actual Facility Location of Well:					
<b>1,980</b>		feet from the <b>West</b>	line and <b>1,980</b>	feet from the <b>North</b>	line
Ground Level Elev. <b>3,621</b>	Producing Formation <b>Queen</b>		Pool <b>Shugart</b>		Dedicated Acreage: <b>40</b> Acres

- Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
- If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
- If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, forced pooling, etc?

Yes  No If answer is "yes," type of consolidation \_\_\_\_\_

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

CERTIFICATION

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief.
