

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION OF THE NEW MEXICO OIL CONSERVATION DIVISION,
THROUGH THE SUPERVISORS OF DISTRICT I AND II, FOR AN ORDER
REQUIRING UHC NEW MEXICO CORPORATION TO PROPERLY PLUG 186
WELLS, AUTHORIZING THE DIVISION TO PLUG SAID WELLS AND
ORDERING A FORFEITURE OF APPLICABLE PLUGGING BOND; CHAVES,
EDDY AND ROOSEVELT COUNTIES, NEW MEXICO.**

2008 AUG 28 PM 1 28
CASE NO. 13548

APPLICATION FOR PLUGGING AND FORFEITURE OF BOND

1. UHC New Mexico Corporation ("Operator") is the operator of the well or wells specifically identified on Exhibit A hereto (which Exhibit is incorporated herein by this reference for all purposes), located in Chaves, Eddy and Roosevelt Counties, New Mexico. The said well or wells are hereinafter called the "subject well(s)," whether one or more.

2. Operator has posted financial assurance in the form of a blanket surety bond in the amount of \$175,000 to secure its obligation to properly plug and abandon all its wells in the State of New Mexico in compliance with NMSA 1978, Sec. 70-2-14 and O.C.D. Rule 101, which bond is conditioned upon compliance with the statutes of the State of New Mexico and the Rules of the Oil Conservation Division ("Division") with respect to the proper plugging and abandonment of wells. U.S. Specialty Insurance Company is the surety on said bond, and the number of the bond is B001075

3. The subject well(s) have not produced any hydrocarbon or carbon dioxide substance nor been used for injection for more than one year and are no longer being used for beneficial purposes. No permit for temporary abandonment has been requested by the Operator or approved by the Division with respect to any of the subject well(s).

4. By virtue of Operator's failure to use the subject well(s) for production or other beneficial purposes or to secure a current temporary abandonment permit, the subject well or wells are presumed abandoned, and are required to be plugged.

5. Division Rule 201.B, issued pursuant to the authority of NMSA 1978, Secs. 70-2-12 and 70-2-14, requires that wells that are inactive for more than one year or are no longer usable for beneficial purposes, and not temporarily abandoned pursuant to Rule 203, be properly plugged.

6. Division Rule 101.M, issued pursuant to the same authority, authorizes the Division, after notice and hearing, to order the operator to plug and abandon any well or wells not in compliance with Rule 201 in accordance with a Division approved plugging program, and to direct the Division to cause such well or wells to be plugged and the operator's financial assurance to be forfeited if, after the time provided in such order, the operator and its surety, if any, have failed to comply.

WHEREFORE, the Supervisors of Districts I and II of the Division hereby apply to the Director to enter an order:

- A. Determining whether the subject well(s) should be plugged and abandoned in accordance with a Division-approved plugging program.

- B. Upon a determination that the subject well(s) should be plugged, directing the Operator to plug the wells by a date certain.
- C. Further ordering that if the Operator or U.S. Specialty Insurance Company, its surety, fails to plug and abandon the subject well(s) as ordered by the Director, the Division be authorized: (i) to plug the subject wells in accordance with a division-approved plugging program; (ii) to declare forfeit the security furnished by the Operator, if any; and (iii) to take necessary and appropriate measures to recover from the Operator any costs of plugging the subject well(s) in excess of the amount of the bond or other security, if any.
- D. For such other and further relief as the Director deems just and proper under the circumstances.

RESPECTFULLY SUBMITTED,

David K. Brooks
Assistant General Counsel
Energy, Minerals and Natural
Resources Department of the State of
New Mexico
1220 S. St. Francis Drive
Santa Fe, NM 87505
(505)-476-3450

Attorney for The New Mexico Oil
Conservation Division
