Ladies and Gentlemen:

This letter is to advise you that Coleman Oil & Gas, Inc. has filed the enclosed application with the New Mexico Oil Conservation Division seeking a one year extension of the production test authorized by Division Order No. R-12201 to determine the economic viability of simultaneously producing four existing gas wells on a standard 320-acre spacing unit in the Basin-Fruitland Coal Gas Pool.

This application has been set for hearing before a Division Examiner on September 22, 2005. The hearing will be held in Porter Hall in the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. **CASE NO. \_\_\_\_\_**

**APPLICATION**

COLEMAN OIL & GAS, INC. ("Coleman"), by its undersigned attorneys, Holland & Hart, LLP, seeks the amendment of Order No. R-12201 entered on August 26, 2004, to extend for one year the production test authorized in four wells located on a standard 320-acre spacing unit comprised of the W/2 of Section 18, Township 26 North, Range 11 West, NMPM, San Juan County, New Mexico to determine the economic viability of producing the upper coal interval in this portion of the Basin-Fruitland Coal Gas Pool and the feasibility of producing these intervals without completing and commingling the production from all stringers in individual wellbores. In support of its application, Coleman Oil & Gas, Inc. states:

1. Coleman is the operator of the W/2 of said Section 18, Township 26 North, Range 11 West, NMPM, on which are located the following Fruitland Coal Gas wells:

1. **Ricky Well No. 1** (API No. 30-045-25976) located 790 feet from the north line and 875 feet from the West line (Unit D);
2. **Ricky Well No. 1R** (API No. 30-045-31165) located 765 feet from the North line and 830 feet from the West line (Unit D);
3. **Ricky Well No. 2** (API No. 30-045-25977) located 1850 feet from the South line and 790 feet from the West line (Unit L);  
and
4. **Ricky Well No. 2R** (API No. 30-045-31166) located 1845 feet from the South line and 745 feet from the West line (Unit L).

2. On August 24, 2004, the Division entered Order No. R-12201 which granted Coleman's application for an exception to Rule 7(d)(2) of the Special Pool Rules and Regulations for the Basin-Fruitland Coal Gas Pool to authorize the simultaneous dedication of four existing coal gas wells in the W/2 of Section 18, Township 26 North, Range 11 West, NMPM, San Juan County, New Mexico for the

purpose of conducting a production test to determine the economic viability of simultaneously dedicating and producing these wells on this standard 320-acre spacing unit in the Basin Fruitland Coal Gas Pool.

3. Order No. R-12201 further provides that the production test authorized therein will end on August 31, 2005 at which time the final disposition of these wells shall be determined.

4. After one year, the production data is not sufficient to conclusively establish that there is no communication between the four wells tested. While fluid level measurements appear to indicate no communication between these wells, the production data to date does not yet establish, on a decline curve analysis, the absence of communication between these wells.

5. A one year extension of this production test should provide sufficient information to establish whether or not wells can be effectively and efficiently produced in this manner in this portion of the Basin-Fruitland Coal Gas Pool.

6. The parameters established for the test by in Order No. R-12201 (including the immediate termination of the test if bottomhole pressure data indicates communication between the upper coal intervals and the basal coal interval) assure that there will be no drainage from offsetting wells and the information obtained to date shows that there is little or no communication between the wells in this portion of the Basin-Fruitland Coal Gas Pool. Accordingly, the extension of the test for an additional year, under the parameters established by the Division will not impair the rights of any other operators.

7. In accordance with Division Rules, notice of this application has been provided to the affected interest owners identified on Exhibit A to this application.

8. Approval of this application will be in the best interest of conservation, the prevention of waste and the protection of correlative rights.

WHEREFORE, Coleman Oil & Gas, Inc. requests that this application be set for hearing on September 22, 2005 before a duly appointed Examiner of the Oil Conservation Division and that after notice and hearing as required by law, the Division enter its order granting this application.

Respectfully submitted,  
HOLLAND & HART, LLP
