

CASE 13570: *Application of Gruy Petroleum Management Company for simultaneous dedication, Lea County, New Mexico.* Applicant seeks authorization to simultaneously dedicate the standard 160-acre gas spacing unit in Rhodes formation, Rhodes Yates-Seven Rivers Gas Pool, comprised of the SW/4 of Section 5, Township 26 South, Range 37 East, to its Rhodes Federal Unit Well No. 54 (API No. 30-025-31463) located in Unit K at a standard location 1930 feet from the South line and 1980 feet from the West line of said Section 5 and its Rhodes Federal Unit Well No. 56 which it proposes to drill at a standard location 1930 feet from the South line and 1980 feet from the West line (Unit M) of said Section 5. Said unit is located approximately 3 miles south of Jal, New Mexico.

CASE 13571: *Application of Gruy Petroleum Management Company for an unorthodox gas well location and simultaneous dedication, Lea County, New Mexico.* Applicant seeks authorization to simultaneously dedicate the non-standard 160-acre gas spacing and proration unit comprised of the SE/4 SE/4 of Section 10 and the NE/4 NE/4, and the S/2 NE/4 of Section 15, Township 26 South, Range 37 East, to its Rhodes Federal Unit Well No. 153 (API No. 30-025-31797) located in Unit A at a standard location 990 feet from the North line and 660 feet from the East line of said Section 15 and its Rhodes Federal Unit Well No. 159 which it proposes to drill at an unorthodox gas well location 2110 feet from the North line and 460 feet from the East line (Unit H) of said Section 15. Said unit is located approximately 3 miles south of Jal, New Mexico.

CASE 13572: *Application of Gruy Petroleum Management Company for simultaneous dedication, Lea County, New Mexico.* Applicant seeks authorization to simultaneously dedicate the standard 160-acre gas spacing unit in Rhodes formation, Rhodes Yates-Seven Rivers Gas Pool, comprised of the NW/4 of Section 10, Township 26 South, Range 37 East, to its Cagle C Federal Com Well No. 6 located in Unit C at a standard location 660 feet from the North line and 1977 feet from the West line of said Section 10 and its Rhodes Federal Unit Well No. 102 (API No. 30-025-24537) located in Unit E at a standard gas well location 1980 feet from the North line and 660 feet from the West line of said Section 10. Said unit is located approximately 3 miles south of Jal, New Mexico.

CASE 13573: *Application of Lance Oil & Gas Company, Inc. for compulsory pooling and optional infill well provisions, San Juan County, New Mexico.* Applicant seeks an order pooling all uncommitted mineral interests from the surface to the base of the Pictured Cliffs formation and the Basin Fruitland Coal-Gas Pool underlying the SW/4 and the S/2 of Section 16, Township 29 North, Range 13 West, in the S/2 to form a standard 320-acre spacing and proration unit for any production from the Basin Fruitland Coal Gas Pool; and in the SW/4 to form a standard 160-acre spacing and proration unit for any production from the Pictured Cliffs formation, including but not limited to the West Kutz-Pictured Cliffs Pool. These units are to be dedicated to the FRCP 16 Well No. 1, to be drilled at a standard location 780 feet from the South line and 1825 feet from the West line in the SE/4 SW/4 (Unit N) and its FRCP 16 Well No. 2 in the SE/4 of said Section 16 for downhole commingled production from the Basin Fruitland Coal Gas Pool and the West Kutz-Pictured Cliffs Pool. The applicant also seeks to include provisions for subsequent operations and procedures for an optional "infill" coalbed-gas well. Also to be considered will be the cost of drilling and completing said wells and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the wells and, pursuant to NMRA 19.15.1.35, the imposition of a 200% risk charge against the working interest of any party that elects not to participate in this project. Said area is located approximately .10 mile south of Farmington, New Mexico.

CASE 13574: *Application of Lance Oil & Gas Company, Inc. for compulsory pooling including optional infill well provisions, San Juan County, New Mexico.* Applicant seeks an order pooling all uncommitted mineral interests from the surface to the base of the Pictured Cliffs formation and the Basin Fruitland Coal-Gas Pool underlying the NE/4 and the N/2 of Section 17, Township 29 North, Range 13 West, to form a standard 320-acre spacing and proration unit for any production from the Basin Fruitland Coal Gas Pool; and the NE/4 to form a standard 160-acre spacing and proration unit for any production from the Pictured Cliffs formation, including but not limited to the West Kutz-Pictured Cliffs Pool. These units are to be dedicated to the FRCP 17 Well No. 1, to be drilled and dually completed at a standard location 1914 feet from the North line and 1449 feet from the East line in the SW/4 NE/4 (Unit G) of said Section 17 for downhole commingled production from the Basin Fruitland Coal Gas Pool and the West Kutz-Pictured Cliffs Pool. The applicant also seeks to include provisions for subsequent operations and procedures for an optional "infill" coalbed-gas well. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and, pursuant to NMRA 19.15.1.35, the imposition of a 200% risk charge against the working interest of any party that elects not to participate in this project. Said area is located approximately .10 miles south of Farmington, New Mexico.
