Re: Case No. 7906  
Order No. R-7313

*Case 7964*

Dear Sir:

The referenced order authorized Sun Exploration and Production Company to dispose of produced salt water into the Yates formation with injection into the perforated interval from approximately 3012 to 3018 feet.

Sun respectfully requests administrative approval to also perforate the intervals from 2986 to 3004 and 3050 to 3060 with injection to be into the same Yates formation.

Your early consideration will be appreciated.

Very truly yours,
