---

To whom it may Concern,

J & M Raymond Ltd. objects to the pooling applications filed by Anschutz in Division Case Nos. 15318 and 15319. We did not receive the well proposal letters until May 11, 2015 and subsequently received copies of the pooling applications after May 21, 2015. We were not contacted by anyone at Anschutz about these wells or the proposed spacing units prior to or after the filing of these pooling applications. In addition to the lack of communication on these matters, we also believe these Applications are inconsistent with the Temporary Special Rules for the Gavilan Greenhorn Graneros Dakota Oil Pool. Indeed, it appears Anschutz is attempting to use the pooling process to change the spacing in this Dakota pool without venting the issues with all of the operators in that pool.

Please note our objection to these pooling applications and thank you for your attention to this matter.

Thank You,

Tanya Horton, APL  
Petroleum Landman  
J & M Raymond, Ltd.
