Had lunch with Cam, Rachel and Andy Lewis.

Do I remember that you you told me that you all (or Concho?) got the royalty fixed with the BLM at 0.125 on the sliding scale leases in Sec 13 & 24? Or part of it?

November 18, 2015

Ard Oil, Ltd. & Ard Energy Group, Ltd.  
c/o Mr. Julian Ard  
222 West Fourth Street  
PH No. 5  
Fort Worth, Texas 76102

RE: Maljamar Prospect – Eddy County, New Mexico

Dear Mr. Ard,

This letter sets out the offer of Burnett Oil Company (“Burnett”) to take a term assignment covering the full interest of Ard Oil, Ltd. and Ard Energy Group, Ltd. (collectively “Ard”) in the Maljamar Prospect, or in the alternative, to enter into a joint operating agreement on terms previously suggested by Houston Kauffman. The lands comprising the Maljamar Prospect and the Ard interest therein is set forth below.

*Term Assignment Offer*

Burnett offers to take an assignment of the Ard interest (10.83438% working interest) in the Maljamar Prospect for a term of approximately two months, expiring January 23, 2016. Burnett will pay Ard seven hundred and fifty dollars (\$750) per net acre as bonus consideration. Ard will deliver an eighty percent (80%) net revenue interest to Burnett, and the assignment will have a one hundred and eighty (180) day continuous development obligation timed from spud to rig release. Burnett will earn Ard’s interest in the spacing and proration unit for each well producing or capable of producing in paying quantities from the base of the San Andres formation to the top of the Abo formation.

*Joint Operating Agreement with ORRI in Lieu of Non-consent Penalty*

In the alternative, Burnett offers to enter into a joint operating agreement, substantially on the AAPL Model 610-1989 Horizontal form covering all of the Ard interest in the Maljamar Prospect. In lieu of the usual non-consent penalty for an election not to participate in a proposed well, Ard will be entitled to a three percent (3%) overriding royalty interest, proportionately reduced to its working interest. If Ard elected not to participate in any well, Ard will assign to Burnett all of its interest in the spacing and proration unit for the proposed well from the base of the San Andres formation to the top of the Abo formation reserving the overriding royalty interest. Such assignment will be due ten days from receipt of Ard’s election, and a failure to timely tender the assignment will cause Ard to be deemed non-consent under a three hundred percent (300%) non-consent penalty. A recordable form of assignment will be agreed to as part of the operating agreement. Further, the operating agreement will grant Burnett a preferential right to purchase the Ard interest if Ard ever decides to sell its interest in the Maljamar Prospect.

Please let us know if either of the two proposed offers set forth above is acceptable to Ard. Your prompt attention and response to this offer is greatly appreciated. Should you have questions or if you would like to discuss this matter further, please do not hesitate to call.

Sincerely,

A handwritten signature in black ink, appearing to read "David S. Rhodes". The signature is fluid and cursive, with a large initial "D" and a stylized "R".

David S. Rhodes

Vice President of Land

DESCRIPTION OF LANDS MALIAMAR PROSPECT\*

Township 17 South, Range 31 East, NMPM, Eddy County, New Mexico

Section 12: NENW, NWNE, S/2 NW, SWNE, N/2SW, NWSE, SESW, SWSE (less and except the well bore for the Hudson Oil Company of Texas-Knockabout Federal #1 located in the NESW - 1830' FSI. & 1980' FWL of said Section 12, API No. 30015336780000)

Section 13: SESW, NW4, N/2 SW

Section 24: N/2, N2S2, SESW, SWSE, SESE

containing 1280 acres, more or less.

Limited to those depths from the base of the San Andres Formation (being also the top of the Glorieta formation) to the top of the Abo formation.

INTERESTS OF THE PARTIES

Ard Oil, Ltd. 10.5010416%

Ard Energy Group, Ltd. 0.3333334%

\*This offer covers those lands and depths that were reassigned to Ard Oil Ltd., and Ard Energy Group, Ltd., pursuant to that certain Partial Reassignment of Term Assignment dated effective October 13, 2013, and that certain Partial Reassignment of Term Assignment dated effective October 1, 2014, both from COG Operating LLC, as Assignor, reassigning to Ard Oil and Ard Energy, unearned interests under a Term Assignment(s).

Mr. Ard,

Nice to talk to you just now. Sorry I missed your call last Friday but, as I explained, our office was closed that day for the Thanksgiving holiday. As we discussed, we will gather up the information you requested in your letter dated 11-27-15 and email it to you as soon as possible. We look forward to hearing from you.

David

**To:** David Rhodes  
**Cc:** Houston Kauffman; epadillapl@qwestoffice.net; JM Ard Energy  
**Subject:** Maljamar Prospect

Dear Mr. Rhodes,

Thank you for your letter dated November 18, 2015 proposing that Ard either grant a term assignment or enter into a JOA covering our interest in the referenced prospect.

In response to your proposal, the Ard entities would be willing to grant a term assignment under the same general terms as the previous term assignment granted to Concho effective April 1, 2011. The new term assignment would be subject to a mutually acceptable form. More specifically, the new term assignment would include an upfront bonus of \$1,800 per net acre, a proportionately reduced overriding royalty equal to 25% less existing lease burdens (in no event less than a proportionately reduced 2%), and a 45 day continuous drilling requirement. All of those terms are per the prior Concho term assignment. It is our understanding Burnett is endeavoring to maintain its other term assignments on this prospect with the same overriding royalty. The new term assignment would provide for commencement of actual drilling of the initial well by January 23, 2016 <x-apple-data-detectors://3>, as Burnett's plans indicate.

I look forward to your response and consummating this transaction as soon as possible.

Julian Ard

Dear Mr. Rhodes,

Thank you for your letter dated November 18, 2015 proposing that Ard either grant a term assignment or enter into a JOA covering our interest in the referenced prospect.

In response to your proposal, the Ard entities would be willing to grant a term assignment under the same general terms as the previous term assignment granted to Concho effective April 1, 2011. The new term assignment would be subject to a mutually acceptable form. More specifically, the new term assignment would include an upfront bonus of \$1,800 per net acre, a proportionately reduced overriding royalty equal to 25% less existing lease burdens (in no event less than a proportionately reduced 2%), and a 45 day continuous drilling requirement. All of those terms are per the prior Concho term assignment. It is our understanding Burnett is endeavoring to maintain its other term assignments on this prospect with the same overriding royalty. The new term assignment would provide for commencement of actual drilling of the initial well by January 23, 2016 <x-apple-data-detectors://3> , as Burnett's plans indicate.

I look forward to your response and consummating this transaction as soon as possible.

Mr. Ard,

Thank you for your email of November 30 in response to Burnett's offer to take a term assignment of your interest in the Maljamar Prospect. The terms of your counter offer are unacceptable to Burnett as written; however, Burnett will take a term assignment of the Ard interest on substantially the following terms:

Burnett will pay bonus consideration of \$1,000 per net acre. Ard will deliver a 75% net revenue interest (thereby reserving an overriding royalty interest equal to the difference between lease burdens (subject to sliding scale royalty, if applicable) and 25%, proportionately reduced) and not subject to a minimum overriding royalty amount. The term assignment will have a 180 day continuous development requirement timed from spud to rig release. As originally proposed, the term will be for approximately two months, expiring January 23, 2016.

In effect, Burnett is willing to move your direction on the bonus consideration and delivered net revenue interest. We believe the 45 day continuous development obligation is simply too short for a horizontal drilling program (versus a vertical one) especially in light of the current commodity price environment.

Please let us know if these terms are acceptable to you.

Thank you,

November 18, 2015

Ard Oil, Ltd. & Ard Energy Group, Ltd.  
c/o Mr. Julian Ard  
222 West Fourth Street  
PH No. 5  
Fort Worth, Texas 76102

RE: Maljamar Prospect – Eddy County, New Mexico

Dear Mr. Ard,

This letter sets out the offer of Burnett Oil Company (“Burnett”) to take a term assignment covering the full interest of Ard Oil, Ltd. and Ard Energy Group, Ltd. (collectively “Ard”) in the Maljamar Prospect, or in the alternative, to enter into a joint operating agreement on terms previously suggested by Houston Kauffman. The lands comprising the Maljamar Prospect and the Ard interest therein is set forth below.

*Term Assignment Offer*

Burnett offers to take an assignment of the Ard interest (10.83438% working interest) in the Maljamar Prospect for a term of approximately two months, expiring January 23, 2016. Burnett will pay Ard seven hundred and fifty dollars (\$750) per net acre as bonus consideration. Ard will deliver an eighty percent (80%) net revenue interest to Burnett, and the assignment will have a one hundred and eighty (180) day continuous development obligation timed from spud to rig release. Burnett will earn Ard’s interest in the spacing and proration unit for each well producing or capable of producing in paying quantities from the base of the San Andres formation to the top of the Abo formation.

*Joint Operating Agreement with ORRI in Lieu of Non-consent Penalty*

In the alternative, Burnett offers to enter into a joint operating agreement, substantially on the AAPL Model 610-1989 Horizontal form covering all of the Ard interest in the Maljamar Prospect. In lieu of the usual non-consent penalty for an election not to participate in a proposed well, Ard will be entitled to a three percent (3%) overriding royalty interest, proportionately reduced to its working interest. If Ard elected not to participate in any well, Ard will assign to Burnett all of its interest in the spacing and proration unit for the proposed well from the base of the San Andres formation to the top of the Abo formation reserving the overriding royalty interest. Such assignment will be due ten days from receipt of Ard’s election, and a failure to timely tender the assignment will cause Ard to be deemed non-consent under a three hundred percent (300%) non-consent penalty. A recordable form of assignment will be agreed to as part of the operating agreement. Further, the operating agreement will grant Burnett a preferential right to purchase the Ard interest if Ard ever decides to sell its interest in the Maljamar Prospect.

Please let us know if either of the two proposed offers set forth above is acceptable to Ard. Your prompt attention and response to this offer is greatly appreciated. Should you have questions or if you would like to discuss this matter further, please do not hesitate to call.

Sincerely,

A handwritten signature in cursive script, appearing to read "David S. Rhodes".

David S. Rhodes
