**IN THE MATTER OF THE APPLICATION
OF NEARBURG EXPLORATION COMPANY, L.L.C.,
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 13676

2006 JUN 30
PM 4 34

APPLICATION

Nearburg Exploration Company, L.L.C. ("Nearburg"), through its undersigned attorneys, hereby makes application for an order pooling all uncommitted mineral interests in all formations from the surface to the base of the Delaware formation underlying the W/2 SW/4 of Section 11, Township 25 South, Range 28 East, NMPM, Eddy County, New Mexico, to form a standard 80-acre spacing and proration unit for all formations spaced on 80 acres within this vertical extent; and the NW/4 SW/4 for all formations and/or pools developed on 40-acre spacing which includes but is not necessarily limited to the Southwest Willow Lake-Delaware Pool, the Undesignated San Lorenzo-Bone Spring Pool and the Undesignated North San Lorenzo-Bone Spring Pool. In support of its application Nearburg states:

1. Nearburg is a working interest owner in the SW/4 of Section 11 and has the right to drill thereon.
2. Nearburg proposes to dedicate the above-referenced spacing or proration units to its Salt Draw 11 State Well No. 2 to be drilled as a horizontal test well from a surface location 2544 feet from the South line and 330 feet from the West line and

terminating in the Delaware formation 330 feet from the South line and 660 feet from the West line.

3. Nearburg has attempted but has been unable to reach agreement with certain interest owners in the SW/4 of Section 11 identified on Exhibit A to this application.

4. Approval of this application will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit Nearburg the opportunity to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted mineral interests should be pooled, and Nearburg should be designated operator of the proposed well.

WHEREFORE, Nearburg requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 2, 2006, and that after notice and hearing as required by law the Division enter its order:

- A. pooling all uncommitted mineral interests in the subject spacing and proration unit;
- B. designating Nearburg as operator of the unit and the proposed well;
- C. authorizing Nearburg to recover its costs of drilling, equipping and completing this well;
- D. approving the actual operating charges and costs of supervision while drilling and after completion of this well, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

- E. imposing the 200% risk penalty provided by Division Rule 19.15.1.35 against any working interest owner who does not voluntarily participate in this project.

Respectfully submitted,
