

Table 3. Future wells to be drilled in the proposed Sunflower Fruitland Pictured Cliffs Unit.

	Operator	Well Name	Location	Zone
* 1	Dugan Prod. Corp.	Sunflower Unit #1	P-2-24N-13W	Fruitland Coal
2	Dugan Prod. Corp.	Sunflower Unit #2	M-1-24N-13W	Fruitland Coal
3	Dugan Prod. Corp.	Sunflower Unit #3	F-6-24N-12W	Fruitland Coal
4	Dugan Prod. Corp.	Sunflower Unit #4	A-11-24N-13W	Fruitland Coal
5	Dugan Prod. Corp.	Sunflower Unit SWD #1	A-11-24N-13W	Entrada Sandstone
6	Dugan Prod. Corp.	Sunflower Unit #5	D-15-24N-13W	Fruitland Coal
7	Dugan Prod. Corp.	Sunflower Unit #6	A-17-24N-13W	Fruitland Coal
* Initial Test Well				

Plan of Development:

After drilling the initial test well it is proposed that an additional 5-vertical producers and 1-salt water disposal well will be drilled (Table 3 and Figure 7). The proposed wells will be drilled at locations best suitable for the exploration and development of the reservoir. If the initial test and the six wells listed in the plan of development are successful, future drilling could include and 1-2 more salt water disposal wells.
