Case 15485

Re: COG Operating LLC Application (Coachman Fee Com #14H Well)

Dear Florene:

Enclosed for filing is an application by COG Operating LLC for approval of a non-standard spacing and proration unit and compulsory pooling for COG's Coachman Fee Com #14H well. Also enclosed is a proposed hearing notice, which I will email to you in Word format.

As stated in the application, COG requests that the application be placed on the Division's April 28, 2016 hearing docket.

Thank you for your assistance.

Very truly yours,

Gary W. Larson

APPLICATION OF COG OPERATING
LLC FOR A NON-STANDARD
SPACING AND PRORATION UNIT
AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO

Case No. 15485

APPLICATION

Pursuant to NMSA § 70-2-17, COG Operating LLC ("COG") applies for an order (i) approving a 160-acre non-standard spacing and proration unit in the W/2 W/2 of Section 21, Township 25 South, Range 35 East, N.M.P.M., Lea County, New Mexico, and (ii) pooling all uncommitted mineral interests in the Delaware formation. In support of its Application, COG states:

1. COG (OGRID No. 229137) is a working interest owner in the W/2 W/2 of Section 21 and has the right to drill a well thereon.
2. COG proposes to dedicate the above-referenced non-standard spacing and proration unit as the project area for its Coachman Fee Com #14H well, which will be horizontally drilled from a surface location in Unit D of Section 21, Township 25 South, Range 35 East to a bottom hole location in Unit M of Section 21, Township 25 South, Range 35 East.
3. The completed interval for the proposed Coachman Fee Com #14H well will remain within the 330-foot standard offset required by 19.15.15.9(A) NMAC.
4. COG has undertaken diligent, good-faith efforts to obtain voluntary agreements from all mineral interest owners in the proposed project area to participate in the drilling of the well, but has been unable to obtain voluntary agreements from all of the mineral interest owners.

5. The pooling of those uncommitted working interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

6. In order to allow COG to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted mineral interest owners in the non-standard spacing and proration unit should be pooled and COG should be designated the operator of the proposed horizontal well and project area.

WHEREFORE, COG requests that this Application be set for hearing on April 28, 2016 and that, after notice and hearing, the Division enter an order:

A. Approving a 160-acre non-standard spacing and proration unit (project area) in the Delaware formation in the W/2 W/2 of Section 21, Township 25 South, Range 35 East, N.M.P.M., in Lea County;

B. Pooling all uncommitted mineral interests in the proposed project area;

C. Designating COG as the operator of the project area and the Coachman Fee Com #14H well;

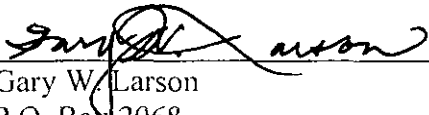

D. Authorizing COG to recover its costs of drilling, equipping, and completing the well;

E. Considering the cost of drilling and completing the Coachman Fee Com #4H well and allocating the cost among the uncommitted working interest owners;

F. Approving the actual operating charges and costs of supervision during drilling and after completion, together with a provision for adjusting the rates pursuant to the COPAS accounting procedure; and

G. Imposing a 200% penalty for the risk assumed by COG in drilling and completing the Coachman Fee Com #14H well against any mineral interest owner who does not voluntarily participate in the drilling of the well.

Counsel for COG Operating LLC

PROPOSED NOTICE

Case No. 15485: Application of COG Operating LLC for a non-standard oil spacing and proration unit and compulsory pooling, Lea County, New Mexico. Applicant seeks an order (i) creating a 160-acre non-standard oil spacing and proration unit (project area) comprised of the W/2 W/2 of Section 21, Township 25 South, Range 35E, NMPM, in Lea County, and (ii) pooling all mineral interests in the Delaware formation underlying this acreage. The project area is to be dedicated to applicant's Coachman Fee Com #14H well, which will be horizontally drilled from a surface location in Unit D of Section 21, Township 25 South, Range 35 East to a bottom hole location in Unit M of Section 21, Township 25 South, Range 35 East. The completed interval for the well will remain within the 330-foot standard offset required by the Division's rules. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost, the designation of COG Operating LLC as the operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The proposed project area is located approximately six miles southeast of Ochoa, New Mexico.
