Re: 2016 Plan of Development
Big Eddy Unit
Eddy County, New Mexico

12:11'S 2
C: 365

Gentlemen:

In accordance with Section 10 of the Big Eddy Unit Agreement dated April 10, 1952, BOPCO, L.P., Operator of the referenced unit, hereby submits a Plan of Development for the Big Eddy Unit for the year 2016.

2014 Activity

- *Drilling*
 - The Big Eddy Unit lies primarily within the Secretaries Potash Area and appropriate development requires the utilization of drilling islands and extended reach horizontal wells. Due to the commodity price environment experienced in 2015, such wells were not economic and only one (1) Big Eddy Unit well was completed.
- *Plugged and Abandoned*
 - No Big Eddy Unit wells were plugged and abandoned in 2015.
- *Participating Areas*
 - No Big Eddy Unit Participating Areas were revised or established in 2015; however, BOPCO anticipates establishing several Bone Spring Participating Areas in 2016 to accommodate new production.
- *Infrastructure*
 - No significant infrastructure changes were made in the Big Eddy Unit in 2015.

Future Development

- Due to market conditions, drilling activity has been temporarily suspended and will resume when the commodity price environment allows for economic development. Future Development wells for the purposes of this Plan of Development are wells for which we anticipate submitting APD's in 2016 or wells for which APD's have already been submitted but that have not appeared on a Previous Plan of Development. Four (4) Bone Spring wells fall into that category.

Offset Obligations

- Appropriate and adequate measures will be taken to prevent drainage of unitized substances from lands covered by the Big Eddy Unit Agreement or pursuant to applicable regulations.

Modifications

- In accordance with the terms and provisions of the Big Eddy Unit Agreement, this Plan of Development may be modified from time to time as a result of changing conditions.

Effective Date

- This Plan of Development became effective on January 1, 2016.

If this Plan of Development meets with your approval, please so indicate by signing in the appropriate space provided below and return one (1) signed original to the undersigned for our records.

Sincerely,

Andy Morrison

Re: 2016 Plan of Development
James Ranch Unit
Eddy County, New Mexico

Gentlemen:

In accordance with Section 10 of the James Ranch Unit Agreement dated April 22, 1952, BOPCO, L.P., Operator of the referenced unit, hereby submits a Plan of Development for the James Ranch Unit for the year 2016.

2015 Activity

- *Drilling*
 - The James Ranch Unit lies entirely within the Secretaries Potash Area and appropriate development requires the utilization of drilling islands and extended reach horizontal wells. Due to the commodity price environment experienced in 2015, such wells were not economic and no James Ranch Unit wells were drilled during that time.
- *Plugged and Abandoned*
 - No James Ranch Unit wells were plugged and abandoned in 2015.
- *Participating Areas*
 - No Participating Areas were revised or established in 2015; however, BOPCO anticipates establishing and/or revising Bone Spring and Delaware Participating Areas in 2016.
- *Infrastructure*
 - *Gas Lift*
 - Electric drive compression was set at the production battery and a 3 ½" steel buried pipeline was constructed to individual well locations to change the artificial lift method on four wells that produce to the James Ranch Unit 19 Battery. Those wells are as follows: James Ranch Unit 148H, James Ranch Unit 190H and James Ranch Unit 195H.

Future Development

- Due to market conditions, drilling activity has been temporarily suspended and will resume when the commodity price environment allows for economic development. Future Development wells for the purposes of this Plan of Development are wells for which we anticipate submitting APD's in 2016 or

wells for which APD's have already been submitted but that have not appeared on a Previous Plan of Development. One (1) Bone Spring well falls into this category.

Unit Expansion

- Preliminary approval for a 13,047 acre expansion of the James Ranch Unit was received from the BLM and New Mexico State Land Office in 2015. The process of securing the necessary ratifications is ongoing and we anticipate submitting the application for final approval in 2016.

Offset Obligations

- Appropriate and adequate measures will be taken to prevent drainage of unitized substances from lands covered by the James Ranch Unit Agreement or pursuant to applicable regulations.

Modifications

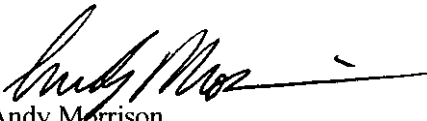

- In accordance with the terms and provisions of the James Ranch Unit Agreement, this Plan of Development may be modified from time to time as a result of changing conditions.

Effective Date

- This Plan of Development became effective on January 1, 2016.

If this Plan of Development meets with your approval, please so indicate by signing in the appropriate space provided below and return one (1) signed original to the undersigned for our records.

Sincerely,

Andy Morrison

Re: 2016 Plan of Development
Poker Lake Unit
Eddy County, New Mexico

Gentlemen:

In accordance with Section 10 of the Poker Lake Unit Agreement dated March 18, 1952, BOPCO, L.P., Operator of the referenced unit, hereby submits a Plan of Development for the Poker Lake Unit for the year 2016.

2015 Activity

- *Drilling*
 - Development of the Bone Spring horizontal development program continued with nine (9) wells being completed.
 - Exploration of the Wolfcamp formation began with one (1) Wolfcamp horizontal test well being completed.
- *Plugged and Abandoned*
 - No Poker Lake Unit wells were plugged and abandoned in 2015.
- *Participating Areas*
 - No new Participating Areas were established in 2015; however, an application for the ±34,000 acre Delaware "D" Participating Area is in the process of being submitted.
- *Infrastructure*
 - *Gas Lift Facilities*
 - Electric drive compression was set at the production battery and a 3 ½" steel buried pipeline was constructed to individual well locations to change the artificial lift method on four wells that produce to the PLU Big Sinks 2-25-30 Battery. Those wells are as follows: PLU CVX JV BS #007H, PLU CVX JV BS #020H, PLU CVX JV BS #023H, and PLU CVX JV BS #029H (state surface).
 - Electric drive compression was set on location and a 4" surface poly line was laid following existing disturbances from the battery to change the artificial lift method on the PLU CVX JV PC #017H well.
 - Electric drive compression was set on location and a 4" surface poly line was laid following existing disturbances from the battery to change the artificial lift method on the PLU CVX JV RR #009H well.
 - Electric drive compression was set on location and a 4" surface poly line was laid following existing disturbances from the battery to change the artificial lift method on the PLU CVX JV BS #018H well.
 - Electric drive compression was set on location and a 4" surface poly line was laid

following existing disturbances from the battery to serve as the initial artificial lift method on the PLU CVX JV PC #019H and PLU CVX JV PC #020H wells.

- Electric drive compression was set on location and a 4" surface poly line was laid following existing disturbances from the battery to serve as the initial artificial lift method on the PLU CVX JV PB #007H and PLU CVX JV BS #034H wells.
- Electric drive compression was set on location and a 4" surface poly line was laid following existing disturbances from the battery to serve as the initial artificial lift method on the PLU CVX JV BS #035H and PLU CVX JV BS #036H wells.

Future Development

- Due to market conditions, drilling activity has been temporarily suspended and will resume when the commodity price environment allows for economic development. Future Development wells for the purposes of this Plan of Development are wells for which we anticipate submitting APD's in 2016 or wells for which APD's have already been submitted but that have not appeared on a Previous Plan of Development. Five (5) Bone Spring wells, four (4) Delaware wells and one (1) Wolfcamp well fall into this category.

Offset Obligations

- Appropriate and adequate measures will be taken to prevent drainage of unitized substances from lands covered by the Poker Lake Unit Agreement or pursuant to applicable regulations.

Modifications

- In accordance with the terms and provisions of the Poker Lake Unit Agreement, this Plan of Development may be modified from time to time as a result of changing conditions.

Effective Date

- This Plan of Development became effective on January 1, 2015.

If this Plan of Development meets with your approval, please so indicate by signing in the appropriate space provided below and return one (1) signed original to the undersigned for our records.

Sincerely,

Andy Morrison
