**CASE NO. 15491**

**MOTION TO CONTINUE**

Matador Production Company ("Matador") moves the Division to continue the above-referenced case, currently scheduled for the May 26, 2016, Examiner Hearing Docket. In support of this motion, Matador states:

1. In Case No. 15491, Caza Petroleum, Inc., seeks an order 1) pooling mineral interests in the Wolfcamp formation underlying the W/2 of Section 13, Township 24 South, Range 27 East, NMPM, Eddy County, New Mexico; and 2) approving an unorthodox well location for the Mad River 13 State Well No. 1H Well.

2. Matador owns a majority of the working interest in Section 13 and is a party affected by Caza's pooling application.

3. Matador recently filed a competing pooling application with the Division, Case No. 15498, which has been set for June 9, 2016. This application seeks approval 1) to pool the mineral interests in the Wolfcamp formation in the N/2 of Section 13, Township 24 South, Range 27 East, NMPM, Eddy County, New Mexico, and dedicate the spacing unit to the Brantley State Com 13-24S-27E RB No. 221H Well; and 2) to authorize an unorthodox well location. Matador believes this proposal will more efficiently and effectively develop the acreage.

4. These competing applications address the same acreage, and should be consolidated for administrative efficiency.

5. The parties are in the process of discussing dates for a Special Examiner Docket hearing.

WHEREFORE, Matador respectfully requests that the Division continue the hearing in this matter to a Special Examiner Docket on a date mutually agreeable to the parties.

Respectfully submitted,
