APPLICANT'S STATEMENT OF CASE

COG Operating LLC seeks to amend Order R-13963 to pool additional uncommitted
interest owners in the non-standard spacing and proration unit. Division Order R-13963, entered
on March 2, 2015, created a 200-acre non-standard spacing and proration unit comprised of the
W/2 W/2 of Section 11 and the NW/4 NW/4 of Section 14, Township 17 South, Range 32 East,
NMPM in Lea County, New Mexico (the "Unit"), and pooled the mineral interests underlying
said unit in West Maljamar-Yeso Pool (44500)). The Unit was dedicated to the **Pan Head Fee
Well No. 12H** (API No. 30-025-40899), which was drilled from a surface location from a

surface location 330 feet from the North line and 990 feet from the West line (Unit D) of Section 11, to a standard bottomhole location 966 feet from the North line and 966 feet from the West line (Unit D) of Section 14.. Since the entry of Order R-13963, COG has discovered additional mineral interest owners, primarily in the form of estates with unmarketable title. COG now seeks to amend Order R-13963 to include these additional interests under the terms of the existing pooling order.
