

Natural Pressurized Fluid in Salt Section

- Shallow overpressure zones within Salt/Anhydrite section can have limited lateral extents.
- Example from the Oxy Ridge Runner lease – overpressure encountered in only 1 of 7 wells in the Salt/Anhydrite section.

Ridge Runner 7 State #1H (surface loc.)

- **Spud:** 8/7/2014
- **Salt water inflow at 3,944'**
