APPLICANT'S STATEMENT OF CASE

Matador Production Company seeks to amend Order R-13666 to pool additional uncommitted interest owners in the spacing and proration unit. Division Order R-13666, entered on December 17, 2012, created a 320-acre spacing and proration unit comprised of the N/2 of Section 14, Township 24 South, Range 28 East, NMPM, in Eddy County, New Mexico. Order R-13666 pooled the uncommitted interests in the Wolfcamp Formation (South Culebra Bluff-Wolfcamp Gas Pool (75750)) in this spacing and proration unit (the "Unit") and dedicated the Unit to the Marra Well No. 1 (API No. 30-015-23752). The Marra Well No. 1 is an existing vertical well that was re-entered at a standard gas well

location 660 feet from the North line and 1,980 feet from the West line (Unit C) of Section 14. Since the entry of Order R-13666, Matador has discovered additional interest owners. Matador now seeks to amend Order R-13666 to include the additional interest under the terms of the existing pooling order.
