Re: 2017 Plan of Development
Big Eddy Unit
Eddy County, New Mexico

Gentlemen:

In accordance with Section 10 of the Big Eddy Unit Agreement dated April 10, 1952, BOPCO, L.P., Operator of the referenced unit, hereby submits a Plan of Development for the Big Eddy Unit for the year 2017.

2016 Activity

- *Drilling*
 - The Big Eddy Unit lies primarily within the Secretaries Potash Area and appropriate development requires the utilization of drilling islands and extended reach horizontal wells. Due to the commodity price environment experienced in 2016, such wells were not economic and no Big Eddy Unit wells were drilled.
- *Plugged and Abandoned*
 - No Big Eddy Unit wells were plugged and abandoned in 2016.
- *Participating Areas*
 - No Big Eddy Unit Participating Areas were revised or established in 2016; however, BOPCO anticipates establishing several Bone Spring Participating Areas in 2017 to accommodate new production.
- *Infrastructure*
 - No significant infrastructure changes were made in the Big Eddy Unit in 2016.

Future Development

- Due to market conditions, drilling activity has been temporarily suspended and will resume when the commodity price environment allows for economic development. Future Development wells for the purposes of this Plan of Development are wells for which we have approved APD's

Offset Obligations

- Appropriate and adequate measures will be taken to prevent drainage of unitized substances from

lands covered by the Big Eddy Unit Agreement or pursuant to applicable regulations.

Modifications

- In accordance with the terms and provisions of the Big Eddy Unit Agreement, this Plan of Development may be modified from time to time as a result of changing conditions.

Effective Date

- This Plan of Development became effective on January 1, 2017.

If this Plan of Development meets with your approval, please so indicate by signing in the appropriate space provided below and return one (1) signed original to the undersigned for our records.

Sincerely,

Andy Morrison
