

Affidavit of Publication

State of New Mexico,
County of Eddy, ss.

Danny Fletcher, being first duly
sworn, on oath says:

That he is the Publisher of the
Carlsbad Current-Argus, a
newspaper published daily at the
City of Carlsbad, in said county of
Eddy, state of New Mexico and of
general paid circulation in said
county; that the same is a duly
qualified newspaper under the laws
of the State wherein legal notices
and advertisements may be
published; that the printed notice
attached hereto was published in the
regular and entire edition of said
newspaper and not in supplement
thereof on the date as follows, to wit:

July 31 2016

That the cost of publication is
\$267.55 and that payment thereof
has been made and will be
assessed as court costs.

Subscribed and sworn to before me
this 4 day of August,
2016

Case No. 15529: Application of BC Operating, Inc. for a non-standard spacing and proration unit, unorthodox well location, and compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order (1) creating a non-standard, 480-acre, more or less, spacing and proration unit, comprised of the W/2 of Section 27 and the NW/4 of Section 34, Township 23 South, Range 26 East,

Eddy County, New Mexico; (2) approving an unorthodox well location; and (3) pooling all uncommitted interests in the Wolfcamp formation underlying this acreage. Said non-standard unit is to be dedicated to applicant's proposed Red Light 27-34 State Com No. 2H Well, which will be drilled horizontally from the NW/4 NW/4 (Unit D) of Section 27 to a non-standard bottomhole location in the SW/4 NW/4 (Unit E) of Section 34. The completed interval is unorthodox because it will be closer than 660 feet to the outer boundary. The completed interval for this well will commence 330 feet from the North line and 990 feet from the West line (Unit D) of Section 27 to a location 2,310 feet from the North line, 990 feet from the West line (Unit E) of Section 34. The completed interval therefore encroaches on the spacing and proration units to the North and South. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of BC Operating, Inc., as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 10 miles southwest of Carlsbad, New Mexico.
