**STATEMENT OF THE CASE**

Applicant Cimarex Energy Company seeks an order creating a non-standard 320-acre,  
more or less, oil spacing and proration unit in the Bone Spring formation, comprised of the E/2

W/2 of Sections 5 and 8 Township 22 South, Range 34 East, NMPM, Lea County, New Mexico, and pooling all mineral interests in the Bone Spring formation underlying this proposed non standard spacing and proration unit

Black Mountain is the owner of certain leasehold working interests within the non standard spacing and proration unit proposed by Cimarex Black Mountain opposes Cimarex s application for the following reason (1) Black Mountain owns and controls one hundred percent of the N/2 of Section 8, T22S, R34E Its acreage is the subject of a pre existing voluntary agreement for development and is consequently unavailable to be force-pooled (2) Black Mountain plans to develop its own acreage by the designating and drilling laydown spacing and proration units comprised of the N/2 N/2 and the S/2 N/2 of Section 8 Cimarex’s well proposal is in conflict with Black Mountain s drilling and development plans Black Mountain will seek the dismissal of the Cimarex’s Application
