Mr Jones

Smith & Marrs and its technical witness require additional time within which to prepare the above referenced case due in part to the technical issues that you noted in your April 20 email to me. Therefore we request a continuance of two weeks to the May 11 2017 OCD docket.

We have asked the concurrence of Ocean Munds Dry counsel for COG Operating who does not have an objection to this request. Thank you.

Hello Ernie

I am copying Ocean since it seems Bill Carr and Ocean made an appearance on April 6 for COG (I don't have Bill's email handy)

Not saying don't come to hearing on this

A quick look and here are some questions I would hope you address

The usual Land questions

I'm sure you will have a Landman explain the surrounding ownership of lands

Is there a Unit nearby to the West?

The usual engineering questions

Expected effect of injection on surrounding production

As far as the Area of Review

My main concern there is the way the AOR well PLU Well No. 51-30-015-23606 was plugged and abandoned. Case 15397 is an example of what could happen – the AOR in that case had a similarly plugged well

Regards

Will Jones

Hi Ernie
I am up for being the examiner on the 27th
And have some technical concerns after a cursory look at this one
An OCD attorney and I could give you a call sometime soon?

Thank You
Will
