

Application of Matador Production Company for compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted mineral interests in the Wolfcamp formation underlying a 320-acre, more or less, spacing and proration unit comprised of the N/2 of Section 32, Township 20 South, Range 29 East, Eddy County, New Mexico. Said spacing and proration unit is to be dedicated to applicant's proposed **Pennzoil 32 Fed No. 201H Well**, which will be horizontally drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 33 to a non-standard bottom hole location in the NW/4 NW/4 (Unit D) of Section 32. The completed interval for this well is unorthodox because it does not comply with the 660-foot setbacks for gas wells pursuant to the statewide rules. Matador will apply administratively for approval of an unorthodox location. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Matador Production Company as operator of the well and a 200% charge for risk involved in drilling said well. Said area is located approximately 11 miles northeast of Carlsbad, NM.
