## STATEMENT OF CASE

### APPLICANT:

Applicant in the above-styled cause seeks an order from the Division (1) creating a non-standard 160-acre spacing a proration unit in the Bone Spring formation, comprised of the E/2 E/2 of Section 26, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico; (2) approving non-standard locations, and (3) pooling all mineral interests in the Bone Spring formation underlying this proposed non-standard spacing and proration unit. This will be for the development of the **Knife Fight Fee 24 34 26 TB 7H**, which is a horizontal well that will develop the Red Hills Bone Spring, North Pool (Pool Code 96434). Also to be considered will be the cost of drilling and completing said well, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Marathon as operator of the well, and a 200% charge for risk involved in drilling said well.

The non-standard locations that Marathon seeks for the **Knife Fight Fee 24 34 26 WXY 7H** well are for the first and last perforations. The first perforation for this well will be located 150' from the North line and 994' from the East line, and the last perforation for this well will be located 150' from the South line and 988' from the East line. Other than the locations for the first and last perforations for the well, the completed interval for this well will comply with the setbacks required by the Division's rules.
