Re: Application of Chevron U.S.A. Inc.
For Non-standard Spacing and Proration
for CB SO 15 22 004 1H, CB SO 15 22
004 2H, and CB SO 15 22 004 3H wells,
W/2 Section 15, T-23-S, R-28-E; and
W/2 Section 22, T-23-S, R-28-E, Eddy
County, New Mexico

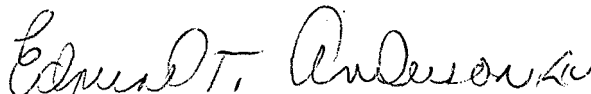

Gentlemen:

Please be advised that I will appear to protest the above referenced Application.

Chevron U.S.A. Inc. is subject to an existing Operating Agreement, and has not followed the procedure for proposing the above referenced wells to the non-operators. Chevron's application should be denied until it complies with the said Operating Agreement.

I will be the only witness on my behalf, which should take 30 minutes, more or less.

Sincerely,

Edmund T. Anderson, IV
