STATEMENT OF THE CASE

Applicant in the above-styled cause seeks an order order (1) creating a 240-acre, more or less, spacing and proration unit comprised of the W/2 SE/4 of Section 28 and the W/2 E/2 of Section 33, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico; and (2) pooling all uncommitted interests in the Wolfcamp formation. COG Operating LLC is a working interest owner in the proposed non-standard spacing unit and has the right to drill thereon. COG proposes to dedicate the above-referenced spacing and proration unit as the project area for its proposed Little Bear Federal Com No. 7H Well, which will be horizontally drilled from a surface location in the SW/4 SE/4 (Unit O) of Section 33 to a bottom hole location in the NW/4 SE/4 (Unit J) of Section 28. The completed interval for the Little Bear Federal Com No. 7H Well will remain within the 330-foot offset as required by the statewide rules. COG has sought and been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights. In order to permit COG to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this non-standard spacing unit should be pooled and COG Operating LLC should be designated the operator of this proposed horizontal well and spacing unit.
