APPLICANT'S STATEMENT OF CASE

COG Operating LLC seeks to amend Order R-13808 to pool additional uncommitted interest owners in the non-standard spacing and proration unit. Division Order R-13808, entered on March 11, 2014, created a 159.67-acre, more or less, non-standard spacing and proration unit comprised of the W/2 W/2 of Section 6, Township 19 South, Range 26 East, NMPM in Eddy County, New Mexico, and pooled the mineral interests underlying said unit in the Atoka-Gloreita-Yeso Pool (Pool Code 3250. The non-standard spacing and proration unit was dedicated to COG's Arabian 6 Fee Well No. 10H Well (API No. 30-015-42004), which was drilled from a surface

location 150 feet from the South line and 210 feet from the West line (Lot 4) of Section 31, to a standard bottomhole location 330 feet from the South line and 530 feet from the West line (Lot 7) of Section 6. Since the entry of Order R-13808, certain leases have expired and a Joint Operating Agreement terminated, resulting in mineral interest owners that are no longer contractually committed to the well. COG now seeks to amend Order R-13808 to include these additional interests under the terms of that pooling order.
