STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION DIVISION FOR THE PURPOSE OF CONSIDERING:

APPLICATION OF MATADOR PRODUCTION COMPANY FOR COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

Case No. 20244

VERIFIED STATEMENT OF NICHOLAS WEEKS

Nicholas Weeks, being duly sworn upon his oath, deposes and states:

- 1. My name is Nicholas Weeks. I am employed by MRC Energy Company, an affiliate of Matador Production Company ("Matador"), as a Senior Landman. I have personal knowledge of the matters stated herein. I previously testified before the Division, and was qualified as an expert petroleum landman. I am familiar with the application filed by Matador in this matter and I am familiar with the status of the lands in the subject area.
- 2. The following information is submitted in support of the compulsory pooling application filed herein:
 - (a) A Midland Map plat outlining the unit being pooled is attached hereto as Attachment A. Matador seeks an order pooling all mineral interests in the Bone Spring formation underlying the W/2E/2 of Section 13, Township 21 South, Range 34 East, NMPM, to form a 160 acre horizontal spacing unit. The unit is dedicated to the Bruce Keplinger 13 State Com. Well No. 123H. The well unit is comprised of state lands. There are no depth severances in the Bone Spring formation.
 - (b) The well is a horizontal well, with a first take point in the SW/4SE/4 and a final take point in the NW/4NE/4 of Section 13. The Form C-102 describing the horizontal well path is attached hereto as Attachment B.
 - (c) The working interest owners being pooled and their working interests in the well are set forth in the Attachment C-1. A record title owner and overriding royalty owners are also being pooled. They are named in the attached Exhibit C-2. The addresses therein are the best addresses we have been able to locate.
 - (d) A typical copy of the proposal letters and Authority for Expenditure sent to the uncommitted working interest owners are attached hereto as Attachment D.

- (e) A copy of the Authority for Expenditure for the well is attached as the third page to Exhibit D. The drilling and completion costs set forth therein are fair and reasonable, and are comparable to those of other horizontal wells of this depth drilled in this area of Lea County.
- (f) I understand that several of the letters sent to interest owners were returned undelivered. To locate the interest owners, we have examined county and state records. In addition, we have used various online searching resources and title brokers to attempt to locate the interest owners.
- (g) Matador has made a good faith effort to obtain the voluntary joinder of the working interest owners in the proposed well. If Matador reaches voluntary agreement with any of the working interest owners, we will notify the Division, and they will not be subject to pooling.
- (h) Pursuant to Division rules, Matador requests that a 200% risk charge be assessed against any non-consenting working interest owner.
- (i) Overhead charges of \$7,500/month for a drilling well, and \$750/month for a producing well, are requested. These rates are fair and reasonable, and are in line with rates charged by other operators in this area for wells of this depth. Applicant also requests that the order contain a provision adjusting the rates pursuant to the COPAS accounting procedure.
- (j) Applicant requests that it be designated operator of the well.
- (k) Matador Exhibit Nos. A-D were either prepared by me or compiled under my direction and supervision.
