**APPLICATION OF OXY USA INC. FOR  
COMPULSORY POOLING, EDDY COUNTY,  
NEW MEXICO.**

CASE NO. 20548

**APPLICATION**

OXY USA Inc. ("OXY") through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 560-acre, more or less, horizontal well spacing unit comprised of the S/2 N/2 and the N/2 S/2 of Section 15, and the SE/4 NW/4, the S/2 NE/4, the NE/4 SW/4, and the N/2 SE/4 of Section 16, Township 24 South, Range 29 East, NMPM, Eddy County, New Mexico. In support of its application, OXY states:

1. OXY USA Inc. (OGRID No. 16696) is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.

2. Applicant proposes to dedicate the above-referenced horizontal spacing unit to the following proposed wells:

- The **Refried Beans CC "15-16" State Com No. 12H Well**, which will be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 15 to a bottom-hole location in the SE/4 NW/4 (Unit F) of Section 16.

- The **Refried Beans CC “15-16” State Com No. 13H Well**, which will be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 15 to a bottom-hole location in the NE/4 SW/4 (Unit K) of Section 16.

3. The completed interval for the **Refried Beans CC “15-16” State Com No. 13H Well** will remain within 330 feet of the S/2 N/2 of Section 15, and the SE/4 NW/4 and the S/2 NE/4 of Section 16 to allow inclusion of these proximity tracts in a standard 560-acre horizontal well spacing comprised of S/2 N/2 and the N/2 S/2 of Section 15, and the SE/4 NW/4, the S/2 NE/4, the NE/4 SW/4, and the N/2 SE/4 of Section 16.

3. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit.

5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

6. In order to permit Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this proposed unit should be pooled and Applicant should be designated the operator of the proposed horizontal wells and spacing unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on June 13, 2019, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Bone Spring formation underlying the proposed spacing unit;
- B. Approving two initial wells in the horizontal well spacing unit;
- C. Authorizing an extension of the normal 120-day period to drill and complete the initial wells;

- D. Designating Applicant as operator of the horizontal spacing unit and the horizontal wells to be drilled thereon;
- E. Authorizing Applicant to recover its costs of drilling, equipping and completing the wells;
- F. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- G. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

HOLLAND & HART LLP

**ATTORNEYS FOR OXY USA INC.**

CASE 20548 : **Application of OXY USA Inc. for compulsory pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 560-acre, more or less, horizontal spacing unit comprised of the S/2 N/2 and the N/2 S/2 of Section 15, and the SE/4 NW/4, the S/2 NE/4, NE/4 SW/4, and the N/2 SE/4 of Section 16, Township 24 South, Range 29 East, NMPM, Eddy County, New Mexico. Applicant proposes to dedicate the above-referenced spacing unit to two initial proposed wells: (1) the **Refried Beans CC "15-16" State Com No. 12H Well**, which will be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 15 to a bottom-hole location in the SE/4 NW/4 (Unit F) of Section 16, and the (2) **Refried Beans CC "15-16" State Com No. 13H Well**, which will be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 15 to a bottom-hole location in the NE/4 SW/4 (Unit K) of Section 16. The completed interval for the **Refried Beans CC "15-16" State Com No. 13H Well** will remain within 330 feet of the S/2 N/2 of Section 15, and the SE/4 NW/4 and the S/2 NE/4 of Section 16 to allow inclusion of these proximity tracts in a standard 560-acre horizontal well spacing comprised of S/2 N/2 and the N/2 S/2 of Section 15, and the SE/4 NW/4, the S/2 NE/4, the NE/4 SW/4, and the N/2 SE/4 of Section 16. Also to be considered will be an extension of the timeframe to drill and complete the initial well, the cost of drilling and completing said wells and the allocation of the cost thereof as well as actual operating costs and charges for supervision, the designation of applicant as operator of the wells, and the 200% charge for risk involved in drilling and completing each well. Said area is located approximately 5 miles east of Malaga, New Mexico.
