Attention: Donald R. Rogers

**RE: Injection Pressure Increase - J.G. Cox SWD Well No. 1,  
Lea County, New Mexico**

Dear Mr. Rogers:

Reference is made to your request dated June 7, 1993 to increase the surface injection pressure on the above-referenced well. This request is based on a step rate tests conducted on this well on June 4, 1993. The results of the test has been reviewed by my staff and we feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

Well and Location	Maximum Injection Surface Pressure
J.G. Cox SWD Well No. 1 660' FNL & 1980' FWL Unit C, Section 13, Township 17 South, Range 38 East	1112 PSIG
This well is located in Lea County, New Mexico.	

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

  
William J. LeMay  
Director
