Re: Amendment of Order No. R-7408  
Yates Federal "C" Well No. 11

Dear Ms. Wilson:

Reference is made to your request dated November 28, 1990, to increase the injection interval in the Yates Federal "C" Well No. 11 located 660 feet from the South line and 1980 feet from the East line (Unit O) of Section 31, Township 20 South, Range 28 East, NMPM, Eddy County, New Mexico, to include the interval from approximately 4260 feet to 4790 feet. It is our understanding that the subject well was previously authorized to inject into the Delaware formation from approximately 3920 feet to 4200 feet by Division Order No. R-7408, dated December 14, 1983. It is further our understanding that the proposed new injection interval is also located within the Delaware formation.

You are therefore authorized to expand the injection interval in the Yates Federal "C" Well No. 11 to include that interval in the Delaware formation from approximately 4260 feet to 4790 feet. All other provisions contained within Division Order No. R-7408 shall remain in full force and effect.

Sincerely,

A handwritten signature in dark ink, appearing to read "William J. LeMay".
