To Whom It May Concern:

I am writing this letter in regard to OGX Resources LLC application asking the OCD to allow a pooling in Eddy County, New Mexico. The hearing is scheduled for July 20, 2006, in Santa Fe, and as an interest owner I am against the application filed by OGX. Asking for a 200% risk charge certainly is not in the mineral owner's best interest. My objection is to statement (3) on page 3 of the application.

Thank you for your consideration.
