Re: Application of the New Mexico Oil Conservation Division, through the Supervisor of District IV, for an Order Requiring CKG Energy, Inc., or Cedar Gas Company to Properly Plug Eight Wells and to Close Abandoned Pits; Quay County, New Mexico, Case No. 13563

Dear Mr. Ezeanyim:

Due to pending issues in the Federal Bankruptcy Court that could affect whether the Oil Conservation Division (hereinafter, "OCD") will elect to go forward with its Application for an Order to Plug Eight Wells and to Close Abandoned Pits, the OCD requests that this matter be continued from the OCD March 16, 2006 docket until the April 13, 2006 docket.

Very truly yours,

Cheryl O'Connor
