**IN THE MATTER OF THE APPLICATION OF CHI OPERATING INCORPORATED FOR
COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.**

CASE NO. 13814

APPLICATION

Chi Operating, Inc. ("Chi") through its undersigned attorneys, hereby makes application to the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17 (2006), for an order pooling all mineral interests from the surface to the base of the Morrow formation in the following described spacing and proration units located in the E/2 of Section 4, Township 22 South, Range 26 East, N.M.P.M., Eddy County, New Mexico: the E/2 for all formations and/or pools developed on 320-acre spacing which includes but is not necessarily limited to the Happy Valley-Morrow Gas Pool and the Happy Valley Atoka Gas Pool; the NE/4 for all formations and/or pools developed on 160-acre spacing within this vertical extent; and the NE/4 NE/4 for all formations and/or pools developed on 40-acre spacing which includes but is not necessarily limited to the Undesignated West Carlsbad-Delaware Pool and in support of its application states:

1. Chi is a working interest owner in the E/2 of said Section 4 and has the right to drill thereon.
2. Chi proposes to dedicate the above-referenced spacing or proration unit to its WC "4" Well No. 4 to be drilled as a directional well at an unorthodox surface location 1100 feet from the North line and 990 feet from the East line and a bottomhole location of 1060 feet from the North line and 660 feet from the East line (Unit A) of said Section 4, NMPM, Eddy County, New Mexico, to an approximate depth of 11,500 feet to test any and all formations from the surface to the base of the Morrow formation.
3. Chi has sought and been unable to obtain a voluntary agreement for the development of these lands from certain interest owners in the subject spacing unit who are identified on **Exhibit A** to this application.
4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

2006 OCT 10 PM 2:42

5. In order to permit Chi to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Chi should be designated the operator of the well to be drilled.

WHEREFORE, Chi Operating, Inc. requests this application be set for hearing before a Division Examiner on November 9, 2006 and, after notice and hearing as required by law, the Division enter its order:

- A. pooling all mineral interests in the subject spacing and proration units,
- B. designating Chi operator of these units and the well to be drilled thereon,
- C. authorizing Chi to recover its costs of drilling, equipping and completing the well,
- D. approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures, and
- E. imposing a penalty for the risk assumed by Chi in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,
