**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**IN THE MATTER OF THE APPLICATION
OF PARALLEL PETROLEUM CORPORATION
FOR COMPULSORY POOLING,
CHAVES COUNTY, NEW MEXICO.**

CASE NO. 13960

APPLICATION

PARALLEL PETROLEUM CORPORATION, ("Parallel") through its undersigned attorneys, hereby makes application to the Oil Conservation Division pursuant to the provisions of N.M.Stat.Ann. § 70-2-17 (2007), for an order pooling all mineral interests from the surface to the base of the Wolfcamp formation in the following described spacing and proration units located in the S/2 of Section 9, Township 15 South, Range 25 East, N.M.P.M., Chaves County, New Mexico: the S/2 for all formations and/or pools developed on 320-acre spacing and in support of its application states:

1. Parallel Petroleum Corporation is a working interest owner in said Section 9 and has the right to drill thereon.
2. Parallel proposes to dedicate the above-referenced spacing or proration unit to its War Emblem 1525-9 Fed Com Well No. 1 to be drilled as a horizontal well from a surface location 1880 feet from the South line and 190 feet from the East line of Section 8, Township 15 South, Range 25 East, a penetration point 1880 feet from the South line and 660 feet from the West line and a bottomhole location 1880 feet from the South line and 660 feet from the East line of Section 9, Township 15 South, Range 25 East, NMPM, Chaves County, New Mexico to test any and all formations from the surface to the base of the Wolfcamp formation.
3. Parallel has sought and been unable to gain the voluntary participation of certain interest owners in the subject spacing unit who is identified on Exhibit A to this application.
4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.
5. In order to permit Parallel to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Parallel Petroleum Corporation should be designated the operator of the well to be drilled.

WHEREFORE, Parallel Petroleum Corporation requests that this application be set for hearing before an Examiner of the Oil Conservation Division on July 26, 2007 and, after notice and hearing as required by law, the Division enter its order:

- A. pooling all mineral interests in the subject spacing and proration units,
- B. designating Parallel Petroleum Corporation operator of these units and the well to be drilled thereon,
- C. authorizing Parallel Petroleum Corporation to recover its costs of drilling, equipping and completing the well,
- D. approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures, and
- E. imposing a penalty for the risk assumed by Parallel Petroleum Corporation in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,
HOLLAND & HART LLP
