**TO: SUPPLEMENTAL NOTICE OF THE HEARING OF THE FOLLOWING  
NEW MEXICO OIL CONSERVATION DIVISION CASE:**

**RE: CASE 13983:**

*Application of Range Operating New Mexico, Inc. to extend  
an Emergency Order authorizing the temporarily authorized  
the pool and lease commingling ("PLC") of produced gas including  
the "off-lease" transfer, measurement and sale of produced gas  
Lea County, New Mexico*

Dear Interest Owner:

Range Operating New Mexico, Inc.'s ("Range") records reflect that you have an interest in the production affected by an emergency order issued by the New Mexico Oil Conservation Division ("Division").

**See copy enclosed**

On Friday, August 3, 2007, Range learned that Southern Union would be making repairs to its gathering system pipeline which resulted in a Range shut-in of forty-six (46) wells due to pipeline repairs. Southern Union found the line leak that Friday and called Range to shut in the wells for a line repair. The more Southern Union dug to figure out how large the leak was, the more they realized how bad of a condition the line is in. This is a 50 year old line that apparently is showing its age. Range understands that Southern Union is replacing 7,000' to 8,000' of the line. Range's affected wells were producing a total of 9.9 MMCFPD with a value of approximately \$80,000 per day. It is estimated by Southern Union that it may take until August 20, 2007, to complete the pipeline repairs and it is likely that the date could be closer to August 30, 2007.

On August 10<sup>th</sup>, as a temporary solution, Range obtained approval from the Division to commence constructing 3" poly lines to temporarily transfer gas off leases that are shut-in to other Range leases that are active sales points. The temporary usage of the poly lines is estimated to last approximately 20 days and is outlined below. All gas will be metered with electronic flow meters at the original lease, and sales will be allocated back to the leases on a BTU basis using these meters. Separation of oil and gas will continue to be at the original lease. There will not be any off lease movement or sales of the oil. Enclosed with this letter are Exhibits 1, 2, and 3 from the original application for the Emergency Hearing Order. Exhibits 1 and 2 depict how the poly lines are installed and what leases they connect. Exhibit 3 lists all wells involved in the off-lease sales of gas. **See copies enclosed.**

On August 13, 2007, the Division issued Emergency Order No. R-12800, (copy enclosed). Because the Division, by rule, can not issue an emergency order for longer than fifteen days without a hearing, this matter has been set for hearing on the Division's August 23, 2007 Examiner's docket scheduled to start at 8:15 am. You are not required to attend this hearing, but failure to appear at the hearing and become a party of record will preclude you from challenging the matter at a later date. The hearing will be held at the Division hearing room located in the Pinon Building, 1220 South St. Francis Drive, Santa Fe, New Mexico, 87502 (phone 505-472-3458).
