Re: Case 13115/Application of Nadel and Gussman Permian,
L.L.C.

Dear Mr. Stogner:

The above case is scheduled for Thursday's hearing. The case was originally heard on August 7th (by Mr. Jones), and land, geological, and engineering testimony was presented. Before the hearing, you delivered the attached letter to me. Subsequent to the hearing, I amended the application to request a higher GOR for the pool, because this was an anomalous situation where a gas stringer was essentially creating a high GOR well in an oil pool.

You were at the hearing, and questioned applicant's engineer. As a result the applicant would, if possible, would like to proceed on the record as established at the prior hearing.

Please let me know if you need a witness to appear.

Very truly yours,

James Bruce

Attorney for Nadel and Gussman Permian, L.L.C.
