Dear Ms. Davidson,

Thank you for the opportunity to propose an alternative to repealing Rule 50.

The alternative is not to repeal Rule 50 as it applies to temporary pits. We do not believe there is a reason to change the rule. We also believe the extra regulations will increase, not decrease the chance for pollution. More disposal sites will be needed and it will cause more truck traffic, increasing the wear and tear on roads and highways. It will also increase the cost of oil and gas products to the consumer.

We respectfully submit this alternative.

Sincerely yours,

Zane B. Galloway
President
