

Burlington Resources

Mesaverde/Dakota Increased Density Project San Juan 27-5 Unit

NMOCD Case 13888
March 15, 2007

STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION

CASE NO. _____

Application of Burlington Resources Oil & Gas Company LP
for approval of a Pilot Infill Well Project within the San Juan
27-5 Unit including directional wellbores and exceptions to the
well density requirements of the Special Rules and Regulations
for the Blanco-Mesaverde Gas Pool and the Basin-Dakota Gas
Pool, Rio Arriba County, New Mexico

APPLICATION

Burlington Resources Oil Gas Company LP ("Burlington") by its attorneys, Kellahin & Kellahin, and applies to the New Mexico Oil Conservation Division ("Division") approval of a Pilot Infill Well Project within the San Juan 27-5 Unit, Rio Arriba County, New Mexico. Applicant seeks an order approving a pilot infill well project in Section 8, T27N R5W, including directional wellbores and exceptions from Rule I. B of the Special Rules and Regulations for the Blanco-Mesaverde Gas Pool and Rule II. B. of the Special Rules and Regulations of the Basin-Dakota Gas Pool whereby 15 new producing and 2 pressure observation wells may be drilled within Section 8, Township 27 North Range 5 West to determine proper well density and well locations requirements for Mesaverde and Dakota wells with this Unit, Rio Arriba County, New Mexico

In support of its application Burlington states:

- (1) Burlington is the current operator of the San Juan 27-5 Unit that includes, among other acreage, all of Section 8, T27N, R5W, Rio Arriba County, New Mexico. **See locator Map attached as Exhibit "A"**
- (2) The San Juan 27-5 Unit is within the current boundaries of both the Blanco-Mesaverde Gas Pool and the Basin-Dakota Gas Pool.

- (3) Effective December 2, 2002, the Division entered Order R-10987-A for the Blanco-Mesaverde Gas Pool and effective January 29, 2002 entered Order R-10981-B for the Basin-Dakota Gas Pool that both provide, in part, that a standard gas proration unit of 320-acres ("GPU") may contain up to a total 4 wellbores so that no more than 2 well are within a 160-acres and that an infill well shall not be located within the same quarter-quarter section as another well, being effectively 80-acre well density.
- (4) Section 8, T27N, R5W has been selected by Burlington as the proposed Pilot Project Area that currently contains 7 producing wells. **See tabulation of current wells attached as Exhibit "B"**
- (5) If approved, Burlington proposes to drill from existing well pads within Section 8 an additional 15 producing wells and 2 pressure observation wellbores. **See tabulation of current wells attached as Exhibit "C" and locator map attached as Exhibit "D"**
- (6) All of Section 8 is within both the Mesaverde and the Dakota Participation Areas for the San Juan 27-5 Unit, therefore the interests within the San Juan 27-5 Unit have be fixed and no corrective rights will be impaired by approval of this pilot project.
- (7) Burlington has conducted a preliminary study to analyze the estimated ultimate gas recoveries within the San Juan 27-5 Unit that indicates:
- a. increasing well densities in both the Mesaverde and the Dakota may improve ultimate recoveries;
 - b. Volumetric and decline curve analysis indicate poor recoveries under current well densities;
 - c. It is prudent to drill additional wells with a pilot project area in order to evaluate the optimum well density under current costs and pricing environments;
 - d. pilot wellbores can be drilled from existing pads to minimize surface disturbance;
 - e. there is an overlap in Mesaverde and Dakota potential within this Unit making it feasible to conduct a pilot within Section 8 for both formations in a single wellbores.

Page 2

(8) Approval of a Pilot Project will afford an opportunity to:

- a. Determine the optimum well density for both the Mesaverde and the Dakota formations within the San Juan 27-5 Unit
- b. Confirm the economic viability for increasing well densities
- c. Validate the reservoir simulation and geologic studies that were used for the preliminary modeling for this project

(9) Notice of this application and the requested hearing will be sent to the Mesaverde and Dakota interest owners in the San Juan 27-5 Unit.

(10) Approval of this application is in the best interests of conservation, the prevention of waste and the protection of correlative rights.

WHEREFORE, Burlington requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 15, 2007 and after notice and hearing as required by law, the Division enter its order approving this application.

RESPECTFULLY SUBMITTED:

W. THOMAS KELLAHIN

TO: NOTICE OF THE HEARING OF THE FOLLOWING NEW MEXICO OIL
CONSERVATION DIVISION CASE:

Re: Application of Burlington Resources Oil & Gas Company LP for approval of
a Pilot Infill Well Project within the San Juan 27-5 Unit including
directional wellbores and exceptions to the well density requirements of
the Special Rules and Regulations for the Blanco-Mesaverde Gas Pool and
the Basin-Dakota Gas Pool, Rio Arriba County, New Mexico

On behalf of Burlington Resources Oil & Gas Company LP, please find enclosed our
application for approval of an Pilot Infill Well Project which has been set for hearing on the New
Mexico Oil Conservation Division Examiner's docket now scheduled for 8:15 a.m. on March 15,
2007. The hearing will be held in Porter Hall in the Division's offices located at 1220 South Saint
Francis Drive, Santa Fe, New Mexico, 87505.

As an interest owner who may be affected by this application, we are notifying you of
your right to appear at the hearing and participate in this case, including the right to present
evidence either in support of or in opposition to the application. You are not required to attend
this hearing, but as an owner of an interest that may be affected by this application, you may
appear and present testimony. Failure to appear at the hearing may preclude you from any
involvement in this case at a later date.

Pursuant to the Division's Rule 1208.B, you are further notified that if you desire to
appear in this case or to oppose the proposed risk charge (See Order R-11992), then you are
required to file a Pre-Hearing Statement with the Division not later than 5:00 PM on Thursday,
February 22, 2007, with a copy delivered to the undersigned. The Pre-Hearing Statement should
include: the names of the parties and their attorneys; a concise statement of the case; the names
of all witnesses the party will call to testify at the hearing; the approximate time the party will
need to present its case; and the identification of any procedural matters that are to be resolved
prior to the hearing.

Very truly yours,

W. Thomas Kellahin
