STEVEN T. BRENNER, CCR (505) 989-9317

4 WHEREUPON, the following proceedings were had at 1 2 11:23 a.m.: EXAMINER JONES: Okay, let's go back on the 3 record, and let's call Case 14,023, Application of 4 Chesapeake Operating, Incorporated, for rescission of the 5 6 special rules and regulations for the T-V Pennsylvanian Gas 7 Pool, Chaves County, New Mexico. Call for appearances. 8 MS. MUNDS-DRY: Good morning, Mr. Examiner, Ocean 9 10 Munds-Dry with the law firm of Holland and Hart, here 11 representing Chesapeake Operating, Inc., this morning, and I have two witnesses. 12 13 EXAMINER JONES: Welcome back, Ocean. MS. MUNDS-DRY: 14 Thank you. EXAMINER JONES: Are there any other witnesses --15 16 or appearances in this case? 17 Will the witnesses please stand to be sworn? 18 (Thereupon, the witnesses were sworn.) 19 JIM BALL, 20 the witness herein, after having been first duly sworn upon his oath, was examined and testified as follows: 21 22 DIRECT EXAMINATION 23 BY MS. MUNDS-DRY: 24 Would you please state your name for the record? Q. 25 My name is Jim Ball. Α.

	5
1	Q. Mr. Ball, where do you reside?
2	A. I reside in Edmond, Oklahoma.
3	Q. And by whom are you employed and what is your
4	position?
5	A. Chesapeake Energy Corporation, senior landman,
6	Permian north.
7	Q. Have you previously testified before the
8	Division?
9	A. Yes, I have.
10	Q. Are you familiar with the Application filed in
11	this case?
12	A. Yes, I am.
13	Q. And are you familiar with the status of the lands
14	that are the subject of this Application?
15	A. Yes, I am.
16	MS. MUNDS-DRY: Mr. Jones, we would tender Mr.
17	Ball as an expert in petroleum land matters.
18	EXAMINER JONES: Mr. Ball is qualified as an
19	expert in petroleum land matters.
20	Q. (By Ms. Munds-Dry) Mr. Ball, would you briefly
21	state what Chesapeake seeks with this Application?
22	A. An order rescinding special pool rules and
23	regulations for the T-V Pennsylvanian Gas Pool.
24	Q. And would you review for the Examiner what these
25	special rules now require?

13. C. C.

	6
1	A. Yes, for the pool boundaries there's something
2	out of order here. Well, 990 feet from the boundary of a
3	quarter section, no nearer than 330 feet to any
4	governmental quarter quarter section.
5	.Q. Do you know what the spacing is?
6	A. The spacing is 320 acres.
7	Q. And do you know what the pool boundaries are?
8	A. Yeah, the pool boundaries are the north half of
9	22 and the west half of 23, Township 11 South, Range 31
10	East.
11	Q. And let's review the history of these rules as
12	they were adopted. Do you know who brought the application
13	for special pool rules?
14	A. Yes, it was Robinson Brothers, 1961, Case Number
15	2131.
16	Q. Was that Application granted?
17	A. Yes, and it resulted in a temporary special rules
18	and regulations in Order Number R-1839.
19	Q. And were those rules made permanent?
20	A. Yes, by Order Number R-1839-A.
21	MS. MUNDS-DRY: Mr. Examiner, we'd ask that you
22	take administrative notice of Order Number R-1839 and
23	1839-A.
24	EXAMINER JONES: Okay, we'll take administrative
25	notice of R-1839 and 1839-A.

	7
1	Q. (By Ms. Munds-Dry) So Mr. Ball, the original
2	boundary for the pool was the north half of Section 22; is
3	that correct?
4	A. That's correct.
5	Q. And was the pool boundary expanded?
6	A. Yes, to be the west half of 23.
7	Q. Was that in Order Number R-12,646?
8	A. Yes.
9	MS. MUNDS-DRY: Mr. Examiner, we'd also ask that
10	you take administrative notice of Order Number R-12,646.
11	EXAMINER JONES: Okay, we'll administrative
12	notice of Order R-12,646.
13	Q. (By Ms. Munds-Dry) Mr. Ball, have you prepared
14	exhibits for presentation at the hearing today?
15	A. Yes, I have, this large color map.
16	Q. Would you please turn to what's been marked as
17	Chesapeake Exhibit A and review that for Mr. Jones?
18	A. Okay, this map shows, first off, the green outer
19	boundary, shows the one-mile radius around the pool itself.
20	The pool is the hached red marks describing the north half
21	of 22, west half of 23. There's three operators in the
22	outlined area, Chesapeake, Read and Stevens and Samson
23	Resources. The blue represents Chesapeake, the gold
24	Samson, and the pink Read and Stevens.
25	These each one of their proration units, and the

1	wells shown, as the symbols indicate, are either new
2	locations, producing gas wells, or P-and-A'd wells. And
3	this is recent activity from the last like 2007. The
4	last year.
5	Q. And does this map show the discovery well for the
6	pool?
7	A. Well, yes, the discovery well was in Section 22.
8	I've only shown the wells that are the recent activity.
9	The discovery well was P-and-A'd, I don't recall what year
10	but previously, so its proration unit isn't shown, but it
11	was in the north half of 22, I believe.
12	Q. And Mr. Ball, if you would please turn to Exhibit
13	Number B and review this for the Examiner. It should be
14	that top letter.
15	A. Okay, Exhibit B is the letter that we got from
16	the State, basically telling us to either file an
17	unorthodox well location application or change pool rules.
18	The attachment shows the wells that were in violation, as
19	the rules are currently written.
20	Q. And as you reviewed the rules for this pool and
21	then looked at the wells that have been currently drilled
22	for this field, were any of the wells drilled in
23	conformance with the special pool rules?
24	A. None of the wells were drilled in conformance to
25	the pool rules.

	9
1	Q. And again, some of these wells, at least, are
2	listed on the letter that's included as Exhibit B?
3	A. That's correct.
4	Q. And then if you would please turn to Chesapeake
5	Exhibit Number C.
6	A. Exhibit C are the two letters, first one being
7	Q. Actually C and D, Mr. Ball.
8	A. C and D, okay. First letter is from Read and
9	Stevens supporting our Application. Exhibit D is the
10	Samson letter, again supporting again, this would be all
11	the operators within the radius of the existing pool.
12	Q. What are the nature of the lands that are the
13	subject of this Application?
14	A. It's state, federal and fee lands. They are
15	approximately 4 percent federal When you take the 6400
16	acres outlined, 4 percent, approximately, is federal lands,
17	36 percent is fee lands, and the balance, 60 percent, is
18	state lands.
19	Q. And then what is the status of the royalty
20	interests, then, under these lands?
21	A. It's the same, state, fed and fee.
22	Q. Will development of these lands on statewide
23	rules adversely affect any of these royalty interests?
24	A. No, they won't.
25	Q. And why is that? Obvious point, but why is that?

	10
1	A. Well, this Application we have, probably is a
2	better situation, we feel like we can better place the
3	wells, therefore producing better outcome and royalties for
4	the state, fed and fee.
5	Q. And were Exhibits A through D compiled by you or
6	prepared by you?
7	A. Yes, they were.
8	MS. MUNDS-DRY: Mr. Jones, we would ask that
9	Exhibits A, B, C and D be admitted into evidence.
10	EXAMINER JONES: Exhibits A, B, C and D will be
11	admitted into evidence.
12	MS. MUNDS-DRY: And that concludes my direct
13	examination of Mr. Ball.
14	EXAMINATION
15	BY EXAMINER JONES:
16	Q. Mr. Ball, the rules on notification, when you
17	change anything to do with a pool, is it your understanding
18	that you notify all the operators within a mile of the
19	pool, or you notice all the operators, and if there's not
20	an operator you notice the lessee? What is your take on
21	that? I don't have my rule book with me.
22	MS. MUNDS-DRY: I believe it's Rule 1210.A.(4),
23	and it requires notice to all operators within a mile, as
24	long as there's a designated operator within that mile
25	radius there.

	11
1	EXAMINER JONES: It doesn't say anything about if
2	there is no operator?
3	MS. MUNDS-DRY: I don't have it in front of me
4	either
5	EXAMINER JONES: Okay.
6	MS. MUNDS-DRY: but I believe it's all of the
7	operators, and that's who we notified, any the operators
8	that had wells in the pool
9	EXAMINER JONES: Okay.
10	MS. MUNDS-DRY: within a mile radius.
11	Q. (By Examiner Jones) Do you know anything about
12	the lessees of the lands that are not colored in?
13	A. Yes, I know that Yates Pet. is in support of it.
14	I didn't since their application was rescinded. I
15	didn't ask them for a support letter, but I'm sure that I
16	could get one. They know we're here, they're in support of
17	it.
18	MS. MUNDS-DRY: And we did notify them, Mr.
19	Hearing Examiner, we did notify you.
20	EXAMINER JONES: Okay.
21	THE WITNESS: As far as the others, I didn't
22	contact them. Let me look real briefly here. There are
23	other people that own leasehold in here that I did not
24	contact.
25	EXAMINER JONES: Okay. I guess what we can do,

1	then, is go ahead and proceed with the case, and if we
2	decide later, after we look at the Rules, that it does
3	require that, I can communicate with your attorney on that.
4	MS. MUNDS-DRY: And I'm sure that we can
5	obviously, of course, give notice to lessees if that's what
6	the Rule is. So we'll go back and review that and
7	EXAMINER JONES: Okay.
8	MS. MUNDS-DRY: make sure we're in compliance.
9	EXAMINER JONES: Okay, I'll talk to Carol
10	afterwards about it.
11	MS. MUNDS-DRY: Okay.
12	Q. (By Examiner Jones) And as far as any other
13	questions, I So Yates didn't show up, even though they
14	got an application turned down? They left it to you guys
15	to change the pool rules?
16	A. I don't remember Yates getting an application
17	to
18	Q. Okay, you said something about they had a well
19	that
20	A. Oh, they had a well permitted, and between Yates,
21	Read and Stevens and Samson worked something out, and they
22	bowed out. And I notified them that they still had this
23	application out there, and they sent in their rescission
24	because they said they got everything worked out
25	Q. Oh.

2	EXAMINER JONES: Okay. Well, I don't think I
3	have any more questions?
4	Do you have any questions?
5	MS. LEACH: Nothing.
6	EXAMINER JONES: Okay, thanks.
7	MS. MUNDS-DRY: We'd like to call David Godsey to
8	the stand.
9	DAVID A. GODSEY,
10	the witness herein, after having been first duly sworn upon
11	his oath, was examined and testified as follows:
12	DIRECT EXAMINATION
13	BY MS. MUNDS-DRY:
14	Q. Please state your name for the record.
15	A. David Godsey.
16	Q. And where do you reside?
17	A. Edmond, Oklahoma.
18	Q. And by whom are you employed and in what
19	position?
20	A. I work for Chesapeake Energy, I'm a senior
21	geologist, working the Permian Basin.
22	Q. And are you familiar with the Application that
23	Chesapeake has filed in this case?
24	A. Yes, I am.
25	Q. And are you familiar with the geology that is the

1	subject of this Application?
2	A. Yes, I am.
3	MS. MUNDS-DRY: We would tender Mr. Godsey as an
4	expert in petroleum geology.
5	EXAMINER JONES: Mr. Godsey is qualified as an
6	expert in petroleum geology.
7	Q. (By Ms. Munds-Dry) Mr. Godsey, have you prepared
8	exhibits for presentation in this hearing?
9	A. Yes, I have.
10	Q. Would you please identify and review Chesapeake
11	Exhibit Number E for the Examiner?
12	A. Certainly. Exhibit E is a net porous sand
13	isopach of the T-V Pennsylvanian Morrow sand that's
14	producing in the field. This is a 1-to-100-scale map. It
15	covers a little bit more than the pool boundaries. It
16	shows all well control out here. The isopach map that you
17	see here was built by subsurface well control. I'm picking
18	net clean porous sand using a 10-percent porosity cutoff in
19	there and mapping that.
20	The red circles you see around four of the wells
21	on there indicate the wells that have produced gas or are
22	producing gas out of the T-V sand. And then in red numbers
23	and green numbers to the right of those we're showing the
24	cumulative production. The gas would be in BCF, and the
25	oil is in MBOs.

، ۲ م

ي چر چر

The two more recent wells that there's no data --1 you know, production data on yet are the Read and Stevens 2 Manry-Elliot Number 2 in Section 22 and then the Chesapeake 3 Lauralea 26 State Number 1. I have information about their 4 recent completions in there. 5 The purple Xs that you see scattered throughout 6 7 the map area, those actually are the legal locations that can be drilled according to the existing field rules. 8 9 Essentially what it works out to be is, you can drill 990 and 990 from the quarter line, or 1650-1650, or a 10 combination of 990 and 1650, with no leeway as we normally 11 have, say, on statewide rules. 12 Also represented on here in the green box is the 13 net feet of porous sand that I'm mapping in here. 14 The real thing to note here is, as always with 15 the nature of the Morrow sands in general, and specifically 16 with respect to this pool, the field rules would make it 17 18 very difficult to properly develop and produce the gas out of this pool. 19 20 Q. Thank you. Would you please turn to Exhibit E --21 F, I'm sorry, and review that for Mr. Jones? 22 Α. This is a spreadsheet of all the wells that have 23 been drilled or permitted within the map area. They are sorted by their permit date, so the earliest permit date 24 25 would be at the top, and the most recent would be at the

> STEVEN T. BRENNER, CCR (505) 989-9317

1 bottom of the spreadsheet.

5

2	It shows the operator, lease name, well number,
3	their actual locations, what field they were filed in, API
4	number, virtually everything you want to know about those
5	wells. It does show what producing formation that they're
6	reported to have produced out of and any net cumulative
7	production that they've made.
8	One thing that you can see from looking at the
9	footage locations on these wells, as Mr. Ball referred to
10	earlier, actually no well drilled out here is actually in
11	compliance with the T-V pool rules.
12	Q. And after looking at the geology in this area and
13	then the well performance, what are your conclusions?
14	A. Well, my conclusion is that the field rules are
15	really not appropriate for this pool. They're not
16	appropriate for the Morrow in general, but specifically to
17	this case the nature of the sands are relatively thin,
18	they're narrow bodies, you need to have leeway as per the
19	normal statewide rules to properly develop this. Without
20	that, you're going to leave gas in the ground and you're
21	going to have very extreme difficulty protecting your
22	correlative rights.
23	Q. And will the granting of this Application be in
24	the best interests of conservation, the prevention of waste
25	and the protection of correlative rights?

1 Α. Yes, it will. If you could please turn to Exhibit G, is Exhibit 2 Q. G an affidavit of publication as well as the green cards 3 that we sent to those operators in the pool? 4 I need to get that from Mr. Ball. I think he 5 Α. walked off with the rest of --6 7 I'll just give you mine. 0. Okay. Yes, it is. 8 Α. 9 Q. Were Exhibits E, F and G either prepared by you 10 or compiled under your direct supervision? 11 Α. Yes. MS. MUNDS-DRY: We would move the admission of 12 13 Exhibits E through G into evidence. EXAMINER JONES: Exhibits E through G will be 14 admitted into evidence. 15 MS. MUNDS-DRY: And that concludes my direct 16 17 examination of Mr. Godsey. 18 EXAMINATION BY EXAMINER JONES: 19 20 Q. Okay, Mr. Godsey, did you look at the case file 21 for the original special pool rules and figure out why they 22 went through these? 23 Α. I didn't examine the history of how they came to those somewhat bizarre rules, no. It was done in the '60s, 24 25 and I'm at a loss to explain. I think I've seen this kind

of pool rules once before, and I can't even remember where 1 2 now. Okay, that was 1960, so that was back when --3 Q. 4 Maybe that was a --Yeah, it --5 Α. Have to ask some of the other -- older people 6 Q. 7 here. They might know. Yeah, I've been in the industry, it'll be 30 8 Α. years this year and, you know, this is pretty unusual 9 10 rules. EXAMINER JONES: Okay, I didn't have any more --11 THE WITNESS: By the way, the discovery well is 12 13 -- that Jim Ball referred to in Section 22, in the northwest quarter of Section 22, made the 4.34 BCF of gas, 14 15 that's the one that was the discovery, and that's the one that they established the pool rules in. It doesn't meet 16 with the pool rules either, you know. So it's -- like I 17 18 said, it's unusual pool rules. I don't think they're 19 appropriate. 20 EXAMINER JONES: Okay, even the discovery well 21 was --That's right. 22 THE WITNESS: 23 EXAMINER JONES: -- didn't obey the pool rules. 24 Okay, that's -- Thank you very much, Mr. Godsey. 25 THE WITNESS: Thank you.

18

	19
1	MS. MUNDS-DRY: Thank you, Mr. Jones.
2	EXAMINER JONES: With that, we'll take Case
3	14,023 under advisement.
